NARRATIVE/REMARKS/COMMENTS

Rob Adams called on Monday, August 14, 2017, in response to an email I had sent (see attached). He said his house was built in January 2015. Mark Parent built a house on the neighboring property in 2005. The two houses share a well and have a shared well agreement. The well is on Rob Adams property. There is one system that serves both houses. Right 63-32128, licensed in 2009, provides water to the Parent property. This water right will be for one home, owned by Mr. Adams.

Subject: Water Right Permit 63-33618

Hello, I am working toward licensing permit 63-33618 for domestic use. Licensing is the final confirmation that a water right has been established. One of the conditions of the water right permit states:
Domestic use is for 1 home.

On your *Statement of Completion For Submitting Proof Of Beneficial Use* form you list the number of households as 2. Do you share a well with another user? Are there two houses on the same system or are there separate systems delivering water to each house. When were the two houses built? Any information you can provide will help me license your water right.
