PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-16473

Dear Permit Holder(s):

The department acknowledges receipt of the Proof of Beneficial Use ("proof") form and license examination fee submitted for the above referenced permit.

One condition of this permit may not have been complied with according to the information you have provided on your proof form.

Condition no. 6 of this permit states:

"Prior to diversion of water under this right, the right holder shall install and maintain acceptable measuring devices at the point of injection."

You must comply with this condition of the permit without delay and prior to the field examination. I have enclosed a copy of this permit for your information. If you feel the condition is unnecessary you may submit a written request to the department asking the requirement be waived. If your permit is subject to a water district you must also provide a written agreement from the watermaster that the requirement may be waived. The department will consider your request and the watermaster's comments, and may issue an order waiving the requirement at this time.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or at the department's website at www.idwr.idaho.gov .

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,
