ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The unleased Rights 37-2586, 37-22662, 37-22198, 37-23010, 37-23011 and 37-23012 when combined shall not exceed the irrigation of 700 acres.
13. Water may not be diverted unless all of the prior water rights including those on the Wood River and for the storage of water in Magic Reservoir are fulfilled.
14. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37B.
15. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
16. Right 37-22197 is also diverted through the point(s) of diversion described above.
17. This right does not authorize the irrigation of land not previously irrigated.

The rights will automatically be released from the Bank on **December 31, 2021**, unless the rights are released earlier by the Water Resource Board (Board). **RE: REQUEST FOR RETURN OF SIGNED WATER SUPPLY BANK LEASE CONTRACTS FOR
WATER RIGHT(S) 37-23010 & 37-23012**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant,

The Department of Water Resources (Department) mailed **two original Water Supply Bank Lease Contracts for your review and signature** on July 13, 2017. The signed contracts have not been returned to the Department.

Please sign both original Lease Contracts and return them to the Department within ten (10) days of this letter to complete processing. The Lease Contract is not considered final until both you and the Department have signed.

If the signed lease contracts are not received by the Department within the 10-day period, the lease application(s) will be returned, and the application fee will not be refunded. You can reapply to lease the water right(s) in the future by submitting new application form(s) along with applicable fees.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

13	☐	Narrative: The Department received these applications on April 24, 2017. The applicant wishes to place the entire right in the Bank. James Miller, current owner, signed the applications. The parent of 37-23010 was decreed in 2009 and the parent of 37-23012 was decreed in 2010. There is a condition on water right 37-23010 that states "water may not be diverted unless all of the prior water rights including those on the Wood River and for the storage of water in Magic Reservoir are fulfilled". Mr. Miller states the reservoir has not filled in the last two years so water was not available. The diversion rate of these rights together is 0.009 cfs. Aerial imagery suggests there may have been irrigation in 2012 and watermaster reports water was delivered in 2014. Forfeiture is not an issue. These rights are currently within WD 37B.
