Subject: Re: Transfer Approval

Dear Corey and Benny,

Thank you so much for your quick response to my transfer request.

I appreciate your assessment and approval of this water right transfer.

I am in total agreement with your with your appraisal and suggestions and appreciate your help in this manner.

I agree with the email in it's entirety and look forward to working with you in the future.

Please consider this my full agreement of your Email.

Dear Mr. Burr,

As we discussed this afternoon, your transfer application proposes creating a 20 acre boundary for the 18 acres of irrigation water you are attempting to transfer. The property you own consists of the entire NWNE ¼ (40 acres) within Section 14. As an alternative to your proposal, we can approve the application for 18 acres, without the 20 acre boundary. This would allow you to irrigate 18 acres within the NWNE ¼ of Section 14 (your property).

I have attached a map that shows 18 acres (outlined in red) that could be identified for your water right.

If this is acceptable, please respond to this e-mail with your agreement.

If you have any questions, or want to discuss this matter further, feel free to give me a call (208)736-3033.

Thanks,

Corey Skinner, PE
Southern Region Manager
