An Agreement Between the Kootenai Environmental Alliance and Jefferey Fautt to Resolve the Protest of Application for Permit 95-17320

In consideration of the agreement on the part of Jefferey Fautt to the following stipulations, the Kootenai Environmental Alliance hereby withdraws its protest against the approval of Application for Permit No. 95-17320.

1. The volume of all water pumped for system use will be measured either by the installation of an Elapsed Time Hour Meter (ETHM) , a totalizing water meter or a sprinkler system that by design will not allow more than the approved volume of water at full use.
2. Watering shall be limited to between hours of 8:00PM and 6:00AM.
3. An automated sprinkler system utilizing smart sprinkler technology consisting of, at a minimum rain sensors, will be installed.
4. The daily volume pumped will not exceed the lesser of 2.5 acres or the number of acres eventually licensed by IDWR times 0.02 cfs.
5. The annual volume of water pumped shall not exceed 7.5AF (3.0AF/Acre X 2.5acres).

Signed,

Sharon Bosley for
Kootenai Environmental Alliance
