MEMORANDUM

To: 43-13378
From: Denise Maline
Date: August 11, 2017
Subj: Applicant address, etc.

We received the attached Change in Address from L Hangin C Land LLC; Joseph & Natalie Grush. There was a note attached, indicating that they have submitted a change in address several times in the last 8 years.

I searched the contact table, as well as their water right records. I found that their address was in fact current in our database. The only error was a type-o in the zip code for the individual contact for Joseph Grush, related to well drilling. This has now been fixed.

On August 11, 2017, I called Natalie Grush, to discuss this with her, and to ensure we weren't missing something. She indicated that they received mail from the Department back in the spring of 2017, along with a Change in Address request. She then found the paperwork and indicated that it was a letter, etc. related to the flow meter requirements. This was sent from the State Office.

I let Natalie know that some of these mailing lists were not 100% up to date, due to database issues; and this is most likely why it was sent to the wrong address, and why there was a Change in Address request included. I also ensured her that the Department has the correct address on file for them; and they do not need to do anything further at this time.
