Subject: Application for Transfer
Attachments: Amended Application.pdf

Good Afternoon;

The Department has received your application for transfer, and I have begun the review process.

I would like to double check something with you – the second page of the application under purpose of application, states that you want to "ADD THREE POINTS OF DIVERSION". The application only lists three points of diversion – if I process the application this way, it will (ONLY) have three points of diversion when it comes out of the process.

If you really want to keep the existing Point of Diversion and add three more – the application will need a total of four points of diversion. The existing well in addition to three more.

If you were trying to keep the current well and add three more, I put together an amended transfer for you. I attached it for your review, if everything looks ok. Please sign and return, if it isn't correct and you only want three points of diversion – Please reply to this email.

If you have any questions, please let me know.

Thanks,

Kerrie Mathews
