RE: Application for Permit No: 65-23582
Protest

Ms. Rachel Neely,

The Squaw Creek Irrigation District is writing to protest Mr. Ronald Appleby's application due to the fact that his water right only has utilization from natural flow of Squaw Creek and he would need to cease irrigation and diversion once Sagehen Reservoir has turned water down. There is no waste water.

All storage water from Squaw Creek/ Sagehen Reservoir is used by water users that pay annual assessments and have paid for the right to irrigate with the water from Squaw Creek/Sagehen Reservoir.

Mr. Appleby has contacted the Squaw Creek Irrigation District on this matter. The Squaw Creek Irrigation District board met with Mr. Appleby and went over his project on site. Mr. Appleby was told at that time the only water available to him was from springs and water in Squaw Creek prior to Sagehen Reservoir's turn out, typically in June/July.

Sincerely,

Deborah L. Carlock-Newton

Squaw Creek Irrigation District
Harry McCaulou, Chairman
Deborah L. Carlock-Newton, Secretary

Cc: Ronald Appleby, Applicant
