RE: Conveyance Document Required for Transfer 81237

Dear Water Right Owner:

On May 22, 2017, transfer number 81237 was approved which added a POD and split water right 65-2590E. A quality control check of the process found that documentation submitted with the ownership change portion of the application contained a Deed of Trust. A Deed of Trust, solely, is insufficient to show ownership of the right. Instead RIO LLC should submit a copy of the Warranty Deed associated with the land to demonstrate the grantor is the owner of the property.

Please submit a copy of the Warranty Deed to secure the transfer process. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The transfer will be rescinded and all actions will be given back to 65-2590E without a timely written reply within the next thirty (30) days.

Please contact me at 208-334-2190 for further assistance. Thank you for your attention to this matter.

Respectfully,

Patrick Kelly
Water Resource Agent, Sr.
