PROOF ACKNOWLEDGEMENT LETTER

RE: Permit Nos. 75-14824 through 75-14836

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. The next step in the process of developing water rights is for the Department to conduct the field examinations to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examinations, please contact the Eastern Region Office of the Department located in Idaho Falls at (208) 525-7161.

Sincerely,

Darla Block

Subject: RE: Statements of Completion (proofs) for Water Righth Permit Nos. 75-14824 thru 75-14836

Darla,

Thank you for your diligence in catching the error that Patterson Creek was the source of all these rights, you have them correctly listed as Carmen and Freeman Creeks.

All of these diversions have lockable, controllable headgates that provide the water master suitable control of the diversions.

Thanks,

Paddy

Subject: Statements of Completion (proofs) for Water Righth Permit Nos. 75-14824 thru 75-14836

July 17, 2017

Dear Mr. Murphy,

The Water Source listed on IDFG's proofs filed with the Department list Patterson Creek as the source for all these rights. Permits 74-14824 thru 75-14833 show the water source as being from Carmen Creek, and 74-14834 thru 75-14836 show the water source as being from Freeman Creek.

In addition, all of the above mentioned permits have a condition of approval that states:

Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.

Please confirm whether or not this condition has been met for all the above mentioned water right permits.

Sincerely,
