

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No.

81600

RECEIVED

APR 24 2017

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

RECEIVED

APR 13 2017

DEPT. OF WATER RESOURCES

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Douglas and Pamela L. Robins

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☒ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

1. ☒ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

Applicants propose a permissible place of use to reflect current irrigation practices using an integrated irrigation system that allows them irrigation flexibility. Applicants also seek to clarify the actual irrigation well location that is currently listed in the wrong forty-acre tract and eliminate one of the authorized surface water diversions.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

B. DESCRIPTION OF RIGHTS AFTER THE REQUESTED CHANGES. IF THE RIGHTS ARE BEING SPLIT, DESCRIBE PORTIONS TO BE CHANGED AS THEY WOULD APPEAR AFTER THE REQUESTED CHANGES.

1.	Right Number	Amount (cfs/ac-ft)	Nature of Use	Period of Use	Source & Tributary
All or Part ☒ ☐	73-192	6.4 cfs	Irrigation	4/1 to 10/31	Pahsimeroi River
☒ ☐	73-10055	3.2	Irrigation	4/1 to 10/31	Pahsimeroi River
☒ ☐	73-7041	1.64/480	Irrigation	4/1 to 10/31	Ground Water
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	

Total authorized under rights 9.6 cfs and/or _____ acre-feet.

2. Total amount of water proposed to be transferred or changed 9.6 cubic feet per second and/or _____ acre-feet per year.

3. Point(s) of Diversion:

- ☐ No changes to point(s) of diversion are proposed - the following chart is therefore not completed. (Proceed to #4.)
☐ Attach Eastern Snake Plain Aquifer analysis if this transfer proposes to change a point of diversion affecting the ESPA.
 Label it **Attachment #5**.

New ?	Lot	¼	¼	¼	Sec	Twp	Rge	County	Source	Local name or tag #
no			SW	NW	27	14N	22E	Custer	Ground Water	73-7041
no			NE	SW	27	14N	22E	Custer	Pahsimeroi River	73-192 & 73-10055

4. Place of use: (If irrigation, identify with number of acres irrigated per ¼ ¼ tract.)

- ☐ No changes to place of use are proposed - the following chart is therefore not completed. (Proceed to #5.)

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Integrated surface and ground water pressurized sprinkler system

Measuring devices and controlling works will be accommodated upon request.

- b. Who owns the property at the point(s) of diversion? Applicants - GW; BLM - SW

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
The property at the Pahsimeroi River diversion points is owned by BLM. No changes are proposed for the lower diversion authorized for both 73-192 & 73-10055. The upper diversion authorized for only 73-10055 will no longer be used and should be removed from this right.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
n/a

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

None

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

T14N R22E S27 NWNW

Total Acres: 40

This application proposes the diversion and use of water from the Pahsimeroi River tributary to the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the State office at (208) 287-4800; or for a full description of the right(s), please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, State Office, 322 E Front St, PO Box 83720, Boise, ID 83720 together with a protest fee of \$25.00 for each application on or before 8/21/2017. The protestant must also send a copy of the protest to the applicant.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 81600

DOUGLAS ROBINS and PAMELA L ROBINS, 1959 FUREY LANE, MAY, ID 83253; has filed Application No. 81600 for changes to the following water rights within CUSTER County(s): Right No(s). 73-10055, 73-192, 73-7041 For additional information concerning the property location, contact IDWR State office at (208) 287-4800; or for a full description of the transfer, please see <http://www.idwr.idaho.gov/water-rights/transfers/search.html>. The purpose of the transfer is to change a portion of the above rights as follows:

Douglas and Pamela L. Robins filed transfer application 81600 for the following changes to water rights within Custer and Lemhi Counties: Rights 73-192 and 73-10055 from the Pahsimeroi River and ground water right 73-7041 The transfer proposes to create a 317 acres permissible place of use for irrigation. The farm is located in T14N R22E Sections 27 and 34. The farm is located approximately 6.5 miles southeast of May.

Protests may be submitted based on the criteria of Idaho Code Sec. 42-222.

Any protest against the proposed change must be filed with the Department of Water Resources, 322 E Front St, PO Box 83720, Boise ID 83720-0098 together with a protest fee of \$25.00 for each application on or before 8/21/2017. The protestant must also send a copy of the protest to the applicant.

NOTICE OF PROPOSED RENTAL FROM WATER SUPPLY BANK

Notice is hereby given pursuant to IDAPA Rule 37.02.03.030.02 (Water Supply Bank Rule 30.02) that the Idaho Water Resource Board (IWRB), PO BOX 83720, Boise, ID, 83702-0098, filed an application on July 10, 2017 (Water Supply Bank Rental Application No. 856), to rent Water Right No(s). 71-10964, 71-10965, 71-10966, 71-10967, 71-10968, 71-10969, 71-10970, and 71-10971 from the Water Supply Bank for an indefinite period of time. The proposed rental in Custer County would provide for the permanent dedication of 6.57 cfs from Meadow Creek for maintenance of the IWRB's minimum stream flow water right on Meadow Creek (water right 71-10894), as well as the dedication of 5.38 cfs from Goat Creek, for maintenance of the IWRB's minimum stream flow water right on Goat Creek (water right 71-10895), both creeks being tributary to the Salmon River.

Comments may be submitted based on the criteria of Section 42-1763, Idaho Code. Comments should be filed in writing to the Idaho Department of Water Resources, PO Box 83720, Boise, ID 83720-0098, or emailed to Bank@idwr.idaho.gov on or before 8/ 21/17. RE: Transfer No. 81600
Water Right No(s). 73-10055, 73-192, 73-7041
Application For Permit No. 73-12258

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application and your water right application. Please refer to the numbers referenced above in all future correspondence regarding this transfer and application.

A legal notice of the applications has been prepared and is scheduled for publication in the CHALLIS MESSENGER on 8/3/2017 and 8/10/2017. Protests to these applications may be submitted for a period ending ten (10) days after the second publication.

If the applications are protested, you will be sent a copy of each protest. All protests must be resolved before the applications can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, the Department will process your application and notify you of any action taken on the applications. If your applications are approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in black ink that reads "Jean Hersley".

RE: Applications for Permit No. 73-12258, 74-16092, 74-16111, 74-16113 & 75-14865
Transfer No. 81600 (Water Rights 73-192, 73-7041 & 73-10055)

Dear Interested Party:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right applications. You can find a copy of the applications at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the applications as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jean Hersley".

RE: Application for Transfer No. 81600
Water Right Nos.: 73-192, 73-7041 & 73-10055

Dear Watermaster:

The Department of Water Resources is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Jean Hersley

From: Sandra Thiel

Re: Review & Evaluation of Sufficiency of Information

The transfer proposes creating a permissible place of use to reflect current irrigation practices using an integrated irrigation system that allows the water right holder flexibility. Applicants also seek to clarify the actual irrigation well location. The point of diversion for right 73-7041 is listed in the wrong quarter quarter. A pressurized sprinkler system will supply irrigation using both surface and ground water.

There are two existing points of diversion for the Pahsimeroi River rights, 73-192 and 73-10055. The Robins do not intend to change the lower diversion. The upper diversion is authorized for 73-10055. This transfer will result in moving the full diversion of right 73-10055 downstream less than a mile. The point of diversion for stock water right 73-11499 falls between the upper and lower diversions. Moving the entire right downstream will have the positive effect of leaving more water in the river for the stock water right. Rights 73-192 and 73-10055 will share the downstream point of diversion with irrigation right 73-182.

Authority to File: According to the 2016 Custer County tax lot data Douglas and Pamela L Robins own the property on the west side of the Pahsimeroi River. The 2017 Lemhi County tax lot data show Douglas Robins as the owner of the property on the east side of the river.

The point of diversion falls on Bureau of Land Management (BLM) land. Doug Robbins sent a letter on June 15, 2017, to Joni Cain, realty specialist for the BLM (see attached copy). In that letter he explains that the water rights from the POD existed before the Federal Land Management Policy act of 1976. On July 11, 2017, I talked to Mike Whitson, hydrologist for the BLM Challis Field Office. He said there is an open ditch from the Pahsimeroi River. This project will include a fish screen and a pipe across BLM land. He said that he would send documentation approving the project and the diversion. As of July 19, 2017, I have not received the documentation.

Water Right Validity: All three rights were decreed in 2009. The NAIP imagery shows irrigated land on the Robins' property. The place of use on record for these rights is an irregular polygon along the Pahsimeroi River. The Robins are irrigating with pivots and the transfer will change the place of use to reflect current irrigation practices.

Injury to Other Water Rights: After the transfer the water right record will more accurately reflect irrigation use at the farm. These rights are regulated by the water master in water district 73. No injury is anticipated.

Enlargement of Use: The transfer will result in fewer points of diversion from the Pahsimeroi River. The three rights will be limited to 0.02 cfs per acre and the standard 3.5 acre feet per acre.

Local Public interest: There are no apparent issues with local public interest. IDWR will advertise the transfer.

Beneficial Use/Conservation of Water Resources: This transfer appears to be consistent with the conservation of water resources in Idaho.

Effect on Economy the Local Area: No adverse impacts anticipated.

Effect on Agricultural Base of the Local Area: The transfer shows no negative impacts on the local agriculture.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Scott

The diversion and ditch as it now sits is pre-FLMA. However we are working with the BLM on a right of way for the improved diversion and fish screen.

So yes, BLM is aware. Mike Whitson of the Challis BLM is the lead on this right of way.

Subject: RE: Local public interest letter for application for permit 73-12258

Hello Sandra,

The following is from Karma Bragg with the Custer Soil and Water Conservation District regarding Public Interest benefits of the Robins' water right applications. Please let us know if you have any questions. Thank you – Scott.

Water right Application for Permit No. 73-12258 and Application for Transfer No. 81600 changing water rights 73-192, 73-10055, and 73-7041 represent a multi-part conservation project that entails diverting Doug Robins' Pahsimeroi River water rights into a pipeline to deliver to his existing center pivot infrastructure. This change will result in less water being diverted out of the river due to efficiency of a pipeline. The project includes installation of a fish screen on a ditch that is currently not screened.

The 40 acres identified in Application for Permit 73-12258 will be irrigated out of the existing well. Because there is a very high likelihood of a conservation easement on the Robins property we need the 40 acres under the well to be "primary" water right. There is also the potential that any remaining acreage that is not currently covered under center pivot currently would be part of the conservation easement. We also need the flexibility to perhaps move the half circle pivot on the Lemhi County side of the river away from the stream to meet the conservation benefits. This will help accommodate fencing and river restoration through that reach of the river.

We (tech team and IDFG) believe that the additional flows accomplished by a pipeline, which could include about 5 cfs, would give us enough flow to reach from diversion P-17 to Hooper Lane, where we have addressed all irrigation diversions through that reach. The installation of

a fish screen and additional water in the river are great public benefits to the river and provide a reconnection of river reaches.

Karma,

It looks like I erred on the Robins transfer application and entered a '27' instead of a '35' for the Pahsimeroi River point of diversion section.

Attached is a letter from Sandra Thiel being sent to Robins. I've edited the error. Robins should initial this change and return to me or directly to Sandra.

Sandra – will a scanned edit be acceptable or do you need an original?

Thank you,
Scott

Sandra,
Thanks. So we goofed and put '27' instead of '35'?
I'll get this fixed.
Scott

Bureau of Land Management
Joni Cain, Realty Specialist
PO Box 817
Challis, ID 83226

Dear Ms. Cain,

I am one of the water right holders for the P-17 ditch, which diverts water from the Pahsimeroi River and conveys it to private lands near Furey Lane. My water rights on this ditch are water right #73-192 (1884 priority date) and water right # 73-10055 (1926 priority date). One or both of those water rights have been diverted at the existing point of diversion and conveyed to my private property using the associated ditch/ditches since their priority dates.

Based upon these facts, I assert that the water rights and ditches were established and used prior to passage of the Federal Land Management Policy Act in 1976. For reference, I have attached a United States Geological Survey file photo that shows the P-17 ditch was in existence at its current location in 1954. I am requesting DOI-BLM recognition of this Right-of-Way (ROW) and annotation of the Pre-FLPMA ROW to the Master Title Plat for the area.

Please feel free to contact me if you have any additional questions or if you would like to perform an inspection of the ditch prior to annotation.

Respectfully,

A handwritten signature in black ink, appearing to read "Doug Robins", written over the word "Respectfully,".

RE: Application for Transfer of Water Rights: 73-192, 73-7041 and 73-10055

Dear Water Right Applicant:

On April 13, 2017, the Department of Water Resources' (IDWR) received an application for transfer. Water right currently has two points of diversion. According to the application, the upper diversion authorized for only 73-10055 will no longer be used. The points of diversion for all three of the rights mentioned above fall on Bureau of Land Management (BLM) land. The application requests the *applicant to describe the arrangement enabling the applicant to access the property for the diversion system*. IDWR has no evidence of that you have the required right-of-way authorization to access the point of diversion. Please information explaining the arrangement you have the BLM that allows you to access the diversion.

The application identifies the location of the Pahsimeroi River point of diversion ad T14N R22E Section 27 NESW. Our records show the downstream point of diversion from the river as T14N R22E Section 35 NESW. I cannot change your application. I have enclosed page 3 of your application. Please make the necessary changes and return this portion of the application to our office.

Please provide the necessary information by July 21, 2017. If I do not hear from you by that date, we will assume that you have no further interest in your proposal and your Application for Transfer of a Water Right will be returned to you. If you have any questions please call me at (208)287-4881 or sandra.thiel@idwr.idaho.gov.

Sincerely,

Sandra Thiel
Sr. Water Resource Agent

Enclosure: Copy of page 3 of the Application for Transfer

Lyle Swank
IDWR Eastern Region Office
900 N. Skyline Dr., Ste. A
Idaho Falls, ID 83402-1718

Subject: Application for Transfer, Application for Permit

Dear Lyle,

Enclosed on behalf of Douglas and Pamela Robins, are an *Application for Transfer* to integrate and clarify their irrigation rights and an *Application for Permit* proposing primary ground water irrigation from an existing well on 40 acres. Two surface water rights currently cover the 40 acres, but are proposed for transfer to different acres on the transfer application.

Check No. 011293 for \$1,470 is enclosed for the filing fees. Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lori Graves", is written over a horizontal line.
