RE: Change in Ownership Permit No. [15-7264](#)

Dear [Sir/Madam](#):

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership.

Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

**** **Application:** On July 21, 2017 the department received an ownership change for the above mentioned water permit. The water right listed above is still an active permit. In order for the department to complete an ownership change for a permit the permit has to be specifically listed on the conveyance document or an Assignment of Permit is required. The permit was not listed on the conveyance document received therefor the Assignment of Permit is required. Please complete the Assignment of Permit application attached and return it to the department. Please note this document must be signed and notarized by the owner of the permit, which is Seth D Seamons.

Because the Department cannot process the ownership change without proper documentation/fees, we will hold any action on your notice pending receipt of the necessary information/fees. If we do not receive the necessary information/fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact the Department if you have any questions.

Sincerely,

Jonie Barg
Technical Records Specialist
