Subject: Water Right #63-15861 – Letter dated March 10, 2017 Concerning Change of Ownership and Amount of Acreage Under Irrigation from Well

To Whom It May Concern:

We are in receipt of a Letter dated March 10, 2017, signed by Jean Hersley from the Idaho Department of Water Resources concerning "Change in Ownership for Water Right/Permit No. 63-15861." This letter included a paragraph which reads:

"Please note that the water right 63-15861 is for domestic and stockwater uses. Under the domestic exemption, you are allowed to irrigate up to ½ acre. According to the maps provided, it appears that more than ½ acre is being irrigated from the well appurtenant to water right 63-15861. If this is the case, you may need to make an Application for Permit for the irrigation portion of this property."

Please be aware that the well appurtenant to water right 63-15861 is used to irrigate only the landscaping immediately around the Meeting House Building. Attached to this letter is an aerial photograph delineating the area in which irrigation is applied to the landscaping around the building. The total acreage of this irrigated area is approximately 0.5 acres. The remainder of the irrigated area is irrigated using municipal water from the City of Kuna. With this clarification, it appears that we are in compliance with State of Idaho Groundwater regulations and do not need to make an "Application for Permit" as was suggested in your letter.

Please let us know if you need anything further from the Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints on this water right. Thank you for this opportunity to clarify the irrigation situation on our property 313 East Deer Flat Road, Kuna, Idaho 83634-1336.

NATURAL RESOURCE SERVICES

Sincerely,

Matthew Paul Davidson, P.E.
