Attachments: Assignment of Permit Form.pdf

Dear permit holder:

A Water Right in the Permit Stage is considered to be personal property of yours. The new owners of the property do not automatically get this water right. If they are interested in obtaining this water right permit and developing water use according to your permit, you will need to complete and submit the attached Assignment of Permit form. There is a \$25.00 fee associated with the filing of an Assignment, which often the new owners of the property are willing to pay.

You will continue to receive correspondence regarding this permit until you assign it over to the new owners of the property. If you have not developed the water use and the new owners of the property are not interested in the development &/or water use, you could relinquish the water right permit and it would no longer be of any force or effect. Please let me know if you wish to relinquish this permit and I will send you the form to do so.

Sincerely,

Darla Block

Permit Number: 95-17212

This is a 120 day courtesy reminder.

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit.

If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **11/1/2017**. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Proof of Beneficial Use and Request for Extension of Time forms are available from any department office or at the department's website at www.idwr.idaho.gov.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,
