OK, I'll correct the PLS grid acres to match your grid numbers rather than the shape.

Michelle, my GIS calculates 783 acres, which is the amount authorized for irrigation. Please re-calculate. The clients do not want to jeopardize their water rights due to IDWR's GIS rounding issues. Thanks.

Lori Graves,
I finally got these 2017 shapes attached to water rights. I calculated the irrigated acres at 779.8 acres. I know that the calculation may round out small slivers but I wanted you to know that it appears a little short.
Thank you for providing the information.
Sincerely,
Michele Edl

Lori Graves,
I have been assigned to update the POU for 61-281A and other rights, held by Ark Properties. Please provide me your shapefiles.
Thank you.
Michele Edl
