WATER RESOURCES
WESTERN REGIONApplicant Name: City of Boise

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Street City State Zip Code
 Email Address pzimmerman@cityofboise.org Phone Number 208-384-3920

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
 If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Lori Graves Professional Title Water Rights Specialist
 Organization SPF Water Engineering Relationship to Applicant Consultant
 Mailing Address 300 E. Mallard Dr., Ste 350, Boise, ID 83706
 Email Address lgraves@spfwater.com Phone Number 208-383-4140

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them Attachment 3A:
See Attachment 3A/4C.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.12 CFS	21.96 AF	0.12 CFS	21.96 AF	7 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/1/2017		☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing pressurized irrigation system for City's Twenty Mile South Farm

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
12 existing wells (see attached)	Ground Water	19 integrated water rights (see attached)

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☐ Irrigation _____ (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☒ Industrial from: 1/1 (mm/dd) to: 12/31 (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☒ Yes ☐ No ☐
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
None

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased total, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
63-7755B	Irrigation	2.54	675	150		0.12	31.5	7
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL			
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it Attachment 4C:

See Attachment 3A/4C.

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☒ No ☐
If yes, describe:
Rental water needed while proposed transfer application is processed.

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information
Because the City is requesting rental of their own water, they wish to incur administrative costs only.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Attachment 3A/4C

Per approved transfer No. 80626, the City has 19 water rights appurtenant to the Twenty Mile South Farm (TMSF) that, when combined, authorize irrigation of 3,653 acres within a 4,225-acre PPU. Currently 150 of those acres are in the Bank under water right 63-7755B (Lease Contract No. 391). Seven of those 150 acres, located in the NENE, S25, T1N, R1E, are requested for rental and are being proposed for transfer to allow the associated consumptive water be used for processing (dampening) compost at the City's new compost facility to be located within their TMSF irrigation PPU. A rental application is being submitted to allow water to be used for the compost facility while the transfer is being processed. Once the transfer is approved, the City will submit a new lease application for 143 acres to account for transfer and use of the 7 acres.

Water right 63-7755B was decreed in 2009. The 7 acres proposed for transfer were leased to the Water Bank in 2015, thereby protecting them from forfeiture since the date of the decree. Historical irrigation use on the 7 acres is also evidenced on the attached 2011 aerial. As confirmed in the attached email statement from Ben Nydegger, TMSF Manager, Alfalfa is one of the crops that has been historically grown on the 7 acres. Based on area ET Idaho data shown below, consumptive water appurtenant to 7 acres of alfalfa will provide 21.96 afa (equivalent to 7,155,666 gpy) for industrial use at the City's proposed compost facility, which is sufficient for the planned operation. Although the right allows a 275-day irrigation season of use (3/1 - 11/30), the consumptive use volume proposed for transfer is based on a 260-day irrigation season of use (3/1 - 11/15), which ET Idaho uses for the alfalfa growing season at this location.

EUGENE W. SHELLWORTH, Mayor of Boise City, a municipal corporation situate in Ada County, Idaho, organized and heretofore operating under a special charter, being an Act of the Third Legislative Assembly of the Territory of Idaho, entitled "An Act to Incorporate Boise City, in Ada County," (approved January 11, 1866), having filed in the Office of the Governor of the State of Idaho a certificate of election and a certificate of population, as required by Chapter 227, 1961 Session Laws of the State of Idaho, and it appearing that:

At an election held under the provisions of Chapter 227, 1961 Session Laws of the State of Idaho, within the corporate limits of Boise City on August 22, 1961, the following proposition was submitted to the qualified electors of said city:

"Shall The Proposition to organize Boise City as a City of the First Class, under Title 50, Idaho Code, and the General Laws of the State of Idaho, be adopted?"

At said election 3693 electors cast their ballots in favor of said proposition and 151 electors cast their ballots as opposed to said proposition.

That the population of Boise City as ascertained by the census taken in 1960 under the laws of the United States was 34,481.

NOW, THEREFORE, I, ROBERT E. SMITH, Governor of the State of Idaho, do hereby by public proclamation declare

Boise City, a municipal corporation situate in Ada County, Idaho, to be a City of the First Class defined and governed by Title 50, Idaho Code, and the General Laws of the State of Idaho.

Given under the official seal of the State of Idaho this 1st day of September, 1961.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at Boise, the Capital, the 1st day of September, in the Year of our Lord Nineteen Hundred and Sixty-one and of the Independence of the United States the One Hundred and Eighty-sixth.

Hi Lori,

This application for permit proposes the diversion of ground water within basin 63, so we need to have an estimate of the water bearing zone before the application can be advertised.
