MEMORANDUM

Date: June 23, 2017

To: Transfer 81632

From: Clay Webster

Re: Review & Evaluation of Sufficiency of Information

The department received this application on April 28, 2017 to change the place of use and the point of diversion from the licensed and decreed locations (S34, NENE, T06N, R05E) to the actual locations of diversion and use (S34, NWNE, T06N, R05E). Upon reviewing the file and the Beneficial Use Field Report for the parent right (63-10192) dated 7-31-86, I found a map that shows location of the place of use and point of diversion as being along Highway 21. One of the conditions of the right states that the domestic use is for church. A search of aerial imagery shows that this is the only church that has property in the legal description of this right. These facts support that this transfer is necessary to correct the legal descriptions of this right.

Authority to File:

This application was signed by Matt Davidson. The Church provided a letter to the department authorizing him to sign applications for water rights.

Water Right Validity:

The parent water right's application for permit was submitted in 1983. It was licensed in 1987. This water right (63-10192B) was decreed in 2003. Aerial imagery shows that the church was built between 1980 and 1987. I have no validity concerns.

Injury to Other Water Rights:

The proposed change is to correct the legal description that was licensed and then decreed. There will be no change to how this right has historically been diverted and used.

Enlargement of Use:

There will be no increase to authorized diversion or beneficial use.

Local Public Interest:

There are no apparent issues identified and the application will be advertised for public comment.

Beneficial Use/Conservation of Water Resources:

The beneficial use will not change with this transfer. The transfer appears consistent with the conservation of water resources in Idaho.

Effect on Economy the Local Area:

No effects are anticipated.

Effect on Agricultural Base of the Local Area:

No effects are anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
