The diversion rate for this domestic right is limited to 0.04 cfs or 18 gpm.

F. VOLUME CALCULATIONS

The annual volume for this domestic right is limited to = 1.2 AF.

G. NARRATIVE/REMARKS/COMMENTS

Field exam performed to verify if the source of water was from a drilled well or a hand dug well. Exam showed a concrete ring that would be associated with a hand dug well under a well house. Original applicant no longer owned property and current owner was mailed a letter with no response. A drive by exam was performed to verify the well, GPS the well, and verify a home. These were all confirmed during the exam, but verification of pump size could not be found. Because this meets the in-office exam requirement, a diversion rate does not need to be verified. License will be issued for domestic for 1 home with irrigation up to ½ acre with an annual volume of 1.2 acre-feet.

Have conditions of permit approval been met? X Yes No

Re: Application for Permit to Appropriate the Public Waters of the State of Idaho.

Permit 91-7108

The Idaho Department of Water Resources (IDWR) needs to have a Field Examination of Beneficial use on water permit 91-7108. It appears that you may have bought the property from the permit holder Kevin Thomas. Please contact me to set a date and time to conduct your Field Examination if the water system is in use.

Please call me at 208-762-2800 or email me at adam.frederick@idwr.idaho.gov to set up a date and time.

Sincerely,

Adam Frederick
Senior Water Resource Agent
Northern Region
