Re: Priority date

Application 65-22753 was received on 01/03/2003. The receipt date for the application is the same. The submission date was published correctly in the advertisement prior to issuing the permit. However, when the permit was issued it was assigned a priority date of 01/03/2002. IDAPA Water Appropriation Rule 035.02.b states that "the priority of an application for unappropriated or trust water is established as of the time and date the application is received in complete form along with the statutory fee in any official office of the department." Therefore, the previously-assigned priority date is inconsistent with Department Rules and has been changed to reflect the date that the completed application was received and paid for (01/03/2003).
