NOTICE OF PROTEST Cont.

6. Basis of protest:

With the issuance of this water right, 11-7829 there is a great concern or possibility that my spring water rights (11-7476, 11-7588, 11-7729) will be affected because they are taking water that is contributing to my spring and could cause it to deplete or dry up etc. Some of my property was listed as a subdivision by Eldon Mattson in Bear Lake County at my location. I would need water from my spring to develop these properties. I believe that this water right 11-7829 is needed for only a few summer homes that had no water or water rights when they built their homes or cabins and now want to have water, long after my home was built. I need water for my home, stock water and irrigation from my spring. I've had these spring water rights (11-7476, 11-7588, 11-7729) for many years and to disturb the channel in which it flows is my greatest concern.

7. What would resolve your protest?

They would have to supply water to my home, other homes I build and subdivide on my property that would need water from my spring water rights along with stock water and irrigation in replacement of my spring if it depletes or dries up etc. Also my stock water and irrigation water can be changed to domestic use if I subdivide my property. I will keep all my water rights as they are recorded with the State of Idaho.
