To: Transfer 81605
From: Kerrie Mathews
Re: Review & Evaluation of Sufficiency of Information

Transfer No. 81605 for water rights 33-14929 and 33-14931 proposes to change the place of use.

Authority to file:

The water rights and current place of use are in the name of Make & Break Construction. The proposed new place of use is in the name of Pancheri Brothers LLC. The application was signed by Luke Marchant, attorney for applicant. A Buy Sell Agreement, signed by representatives of Make & Break, was included with this application authorizing the movement of the water to the new place of use. Water rights will be conveyed and ownership changes filed after the transfer approval. There is no security interest in the rights.

Validity of the Water Right:

Water rights 33-14929 and 33-14931 were decreed on August 11, 2000. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. An ESPA analysis was not conducted and submitted with the application. No analysis is required. The application was not advertised, because no hydrologic impact is expected to occur. Point of diversion is not changing. Place of use is moving less than one-half mile.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
