WATER SOURCE ACCESS AND SHARING AGREEMENT

This Water Source Access and Sharing Agreement (the "Agreement") is made effective
this 29th day of September, 2014, by and between Robin B. Brooks ("Grantor"), and Sean T.

Glaccum and Ginger A. Glaccum, husband and wife (collectively, "Grantee"). The Grantor and Grantee may be collectively referred to as the "Parties."

RECITALS:

WHEREAS, pursuant to that certain Real Estate Purchase and Sale Agreement of June 27, 2014, Grantor has agreed to sell and convey to Grantee the real property more fully described in *Exhibit A* ("Grantee's Property") upon the fulfillment of certain conditions (the "Transaction"), which exhibit is attached hereto and incorporated herein;

WHEREAS, after the sale and conveyance of Grantee's Property to Grantee pursuant to the Transaction, Grantor will retain ownership of the real property more fully described in *Exhibit B* ("Grantor's Property"), which exhibit is attached hereto and incorporated herein;

WHEREAS, the Transaction, if completed, will also involve the conveyance of a fractional interest of water right 65-2589 by Grantor to Grantee, such fractional interest being herein referred to as "Grantee's Water Right;"

WHEREAS, the source of water (the "Source") for Grantee's Water Right is within Grantor's Property. "Source" is intended by the Parties to refer to all storage tank(s) and other improvements of any kind which are presently in existence or subsequently constructed on the Grantor's Property and which are necessary or helpful to cause delivery of water pursuant to the Grantee's Water Right to the Grantee's Property;

WHEREAS, Grantor desires to grant and Grantee desires to receive the right to use and access the source of water for Grantee's Water Right, subject to the terms and conditions of this Agreement.

AGREEMENT:

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. **Grant.** Grantor hereby grants to Grantee the right to divert water from the Source and convey such water to Grantee's Property, pursuant to the terms and conditions of Grantee's Water Right.
2. **Primary Responsibility for Maintenance and Easement for Access.** Grantor shall have the primary responsibility to maintain the flow and diversion of water from the Source across the Grantor's Property to the Grantee's Property. Grantor hereby grants and conveys to Grantee an easement across the Grantor's Property for the purpose of maintenance, repair, replacements and further improvements of the Source, including the ditches, gates, storage tank(s) and other improvements from which Grantee derives water pursuant to the Grantee's Water Right to the extent reasonably necessary or helpful to allow Grantee to receive the full amount of water permitted by the Grantee's Water Right. Except in the case of an emergency, Grantee shall provide Grantor with prior notice of Grantee's need to access the Source.
3. **Cost Sharing.** To the extent that any repairs, maintenance, replacements or further improvements are necessary in order to maintain the flow of water from the Source, Grantor and Grantee shall share such costs equally.

4. **Administration.** Responsibility for ensuring Grantee's Water Right and the use of water thereunder comply with requirements of the Idaho Department of Water Resources shall lie exclusively with Grantee. Grantor makes no express or implied warranties with respect to Grantee's Water Right, except that Grantor does warrant that Grantee shall be the lawful owner and holder of the Grantee's Water Right upon consummation of the Transaction.

5. **Binding on Successors.** This Agreement shall be recorded in the official records of Boise County, and this agreement, and the easements and rights herein granted shall be appurtenant to the respective dominant estate, shall be binding on the servient estates, and shall be binding on the heirs, successors, administrators, executors and assigns of all parties hereto and shall run with the land.

6. **Counterparts.** This Agreement may be executed in counterparts, each part being considered an original document, all parts being but one document.

7. **Indemnification Provisions.** The Grantee agrees to indemnify, defend and hold the Grantor, and its successors, assigns, and agents harmless from any and all claims, liability, losses, costs, charges, or expense (including damage to the Grantor's Property) that arise from Grantee's entry on Grantor's Property in order to access the Source. Each Party further agrees to indemnify, defend and hold the other Party, and the other Party's successors, assigns, and agents harmless from any and all claims, liability, losses, costs, charges, or expense that arise from the indemnifying party's breach of any term of this agreement.

8. **Remedies.** In the event of a breach hereunder by any Party, the non-breaching Party shall have all remedies available at law or in equity, including the availability of injunctive relief. In any suit, action or appeal therefrom to enforce or interpret this Agreement, the prevailing Party shall be entitled to recover its costs incurred therein, including reasonable attorneys' fees and disbursements.

9. **No Public Dedication.** This Agreement is not intended to constitute a dedication of property to the general public.

10. **Notices.** All notices, demands and requests required or desired to be given under this Agreement must be in writing and shall be deemed to have been given as of the date such writing is (i) delivered to the Party intended, (ii) delivered to the then current address of the Party intended, or (iii) rejected at the then current address of the Party intended, provided such writing was sent prepaid. Dear Water Right Holder(s):

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records based on the information received to reflect the change in ownership and has enclosed a computer-generated report for your records.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact me at 208-287-4942 if you have any questions concerning the enclosed information or this letter.

Sincerely,

A handwritten signature in black ink that reads "Jean Hersley".
