Steve Cann
1644 S. State St.
Preston, Id 83263

Mr. Cann,

Cub River is deeding the right of way to the upper canal to Franklin County for their use in controlling surface run off. Your request to continue pumping from that structure is certainly ok with Cub River Irrigation Co, but you must understand that we will have absolutely no jurisdiction over the abandoned alignment and will NOT deliver water into the upper canal for any reason. The county will have the final voice as to the use of the upper canal. We certainly hope that you can work out a mutually beneficial arrangement with Franklin County. We would like to see the water put to a beneficial use.

Thanks,

Don Baldwin
Cub River Irrigation Co.
