Part 1A.2

The purpose of this application is to “clean up” the water rights that the Ross Point Water District has acquired and/or claimed. The District is in the process of adding a new well to the system to replace the Primrose Well that was abandoned approximately 10 years ago. As part of this “clean up”, we intend to add the District’s water rights (95-4088, 95-7258, 95-8477, 95-9009, 95-7698, and 95-15533) to each of the points of diversion connected to the system. The place of use for each of those water rights will then include the entire water district boundary.

Two of the District’s water rights (95-7698 and 95-15533) are existing irrigation water rights that have sources that have been connected to the District’s distribution system and need to be converted to municipal with a district wide place of use.

The Water District currently serves over 2600 connections, both residential and commercial, and has fire flow demands of 3,500 gpm.

Hi Adam,

Attached is the water district system map. It shows five current points of diversion and we are adding a sixth. All wells have totalizing flow meters and quantities are recorded weekly. We would not like to amend the application at this time. With regards to Mr. Selden, he's the District Manager and has been signing applications to IDWR for the last 40 or so years. We'll try to find the authorization, but it may be buried in the District Archives.

Thanks for your help!

Ross Point Water District,

Before we can proceed in processing the transfer application for water right 95-9009, we will need the following information:

1. "If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant." We cannot verify that Mr. Selden is able to sign on behalf of Ross Point Water District.
2. Would you like to amend your transfer application to authorize all wells that are interconnected on system? We noticed that your adjudication recommendations show 5 points of diversions and DEQ water system details show 5 active wells.
3. Please supply a map of the diversion, measurement, control and distribution system as referenced by item 7 on the transfer application.

Please submit the following information within 30 days. The sooner we receive the requested information, the sooner we can evaluate the information and continue processing. If you have any questions, feel free to give me a call.

Hi Adam,

Attached is the water district system map. It shows five current points of diversion and we are adding a sixth. All wells have totalizing flow meters and quantities are recorded weekly. We would not like to amend the application at this time. With regards to Mr. Selden, he's the District Manager and has been signing applications to IDWR for the last 40 or so years. We'll try to find the authorization, but it may be buried in the District Archives.

Thanks for your help!

Best Regards,

Ray Kimball, P.E.

Subject: Ross Point Transfer Application 95-9009

Ross Point Water District,

Before we can proceed in processing the transfer application for water right 95-9009, we will need the following information:

1. "If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant." We cannot verify that Mr. Selden is able to sign on behalf of Ross Point Water District.
2. Would you like to amend your transfer application to authorize all wells that are interconnected on system? We noticed that your adjudication recommendations show 5 points of diversions and DEQ water system details show 5 active wells.
3. Please supply a map of the diversion, measurement, control and distribution system as referenced by item 7 on the transfer application.

Please submit the following information within 30 days. The sooner we receive the requested information, the sooner we can evaluate the information and continue processing. If you have any questions, feel free to give me a call.

Sincerely,

Adam Frederick
