Re: Assignment of Permit for Water Permit No. 63-33882 (Split into 63-33882 and 63-34385)

Dear Water Right Holder(s):

We have received and processed an Assignment of Permit for a portion of your original water permit referenced above. This assignment resulted in a split of your original water permit.

When a portion of the original water permit has been conveyed to another and the original permit has been split, then the original number remains the same and a new number is issued to the new portion. Each split contains only the portion of the original right for each separate owner. Enclosed is an updated copy of this water right for your records. Please refer to this number when corresponding with our office.

Also, the Department has enclosed computer-generated reports for water rights 63-9937, 63-11343, 63-33817, 63-33819, 63-33821, 63-33823, 63-33825, 63-33827, 63-33829 and 63-33831 that were recently split and a portion was conveyed to Nicholson Properties LP. An error was found in the total number of acres. This was corrected and is reflected on the new water right reports enclosed.

Thank you again for your patience and cooperation. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,
