Dear Water user,

It has come to the Department's attention that water right 36-7270 in the name of Karl C. Freeman is associated with property you own. Water right 36-7270 is for the diversion of up to 0.07 cfs from springs in the Country Club Estate Subdivision for irrigation and domestic uses. During this year's 2017 water assessments for Water District 130 it was brought to our attention that this source is no longer in use and that most of the subdivision's lot owners have drilled their own domestic wells.

Upon review it was found that water right 36-7270 is appurtenant to 14 lots within the Country Club Estate Subdivision and allows for a total of 1 acre of irrigation (see attached water right). This means that each of the 14 lot owners has one domestic in-house use and 1/14 acre of irrigation from the springs. When split between the 14 lots this is a very small amount of water and falls far below the standard domestic exemption that is allowed for each lot without a recorded water right.

As indicated above it is understood by the Watermaster of Water District 130 that this water right is no longer in use and should be abandoned by the water right owners. Currently the water right is in the name of Karl C. Freeman. In order to abandon your portion of water right 36-7270 the Department needs the attached forms filled out and returned with a copy of the deed showing ownership of your property. If you feel this water right is still valid, please feel free to contact me at 208-736-3033.

Respectfully,

Jana Reeder
Sr. Water Right Agent
IDWR
