Morning Todd;

Finishing up the final review of your app prior to advertising. Everything looks good, but the application page 3 is a mess. I cleaned it up, would you please check and if everything looks ok to you please send me a note saying that it is ok.. If you could do this right away I can get it to advertising today.

Thank you,

Kerrie Mathews

RE: Application for Transfer

Dear Mr. & Mrs. Cook

The Department has received your application for permit. Unfortunately, the application as submitted cannot be processed. In order to continue processing your application, please correct the items listed below, on the application. Once I receive the corrected application and the additional information, I can continue processing your application.

- The water right is in both of your names, the application needs to be signed by both of you. Please have Jennifer sign as well.
- There are no maps included with your transfer. I have included a printout for you. Please clearly mark the place of use and the point of diversion on this map and return.
- The application includes page 5. This portion of the application is intended to split the water right into two separate pieces. Was this your intent?
- The application fee is based on the cfs of the total acreage being moved. I am enclosing the fee schedule for your review.

If you have any questions, please let me know.

Sincerely,

Kerrie Mathews

Sr Water Resource Agent
