Nick,

Let push forward with a June 1 prehearing conference then.

Greg,

Until I receive something from BLM withdrawing their protest we cannot continue processing the application. You will need to either get in touch with them and get it resolved, or we can schedule a prehearing conference and discuss it there. If the BLM does not attend the conference, we can then dismiss their protest. So, I think a prehearing conference is the next step if you cannot get a response from the BLM on your own. Please let me know if you want me to go ahead and schedule a prehearing conference on or about June 1, or if you would prefer we continue to wait a while.

Nick.

Gentlemen,

I believe that Brockway Engineering has made the necessary corrections to the transfer application to allow it to be processed. However, I have attempted to contact Fred Price multiple times by phone and have sent him emails also. I have not received any correspondence from Fred Price regarding Transfer #81499.

There is no need to push this transfer and protest to a pre-hearing over this issues the BLM are concerned about. But I am unsure on how to proceed forward with the transfer if BLM is unwilling to return a phone call or email regarding their protest concerns.

Greg,

Patrick forwarded your message to me for response.

I can't speak for BLM, but it does sound like the proposal is in the ball park. I'll wait to hear back from BLM as they would typically draft up a stipulated agreement stating that they would withdraw their protest provided the application is amended as you describe and that the department condition any permit with certain language. Again, this is up to the parties, but that is how it has worked out in the past with similar contested cases.

I would suggest you communicate with Fred Price and then let me know if you two want us to schedule a prehearing conference or if you plan to draft and sign a stipulation without a conference.

I'll go ahead and send out the standard protest acknowledgment and wait to hear back from either of the parties regarding how you want to proceed.

Nick.

Patrick and Fred,

See the attached amended Exhibit B and Maps for Transfer 81499. Exhibit B has been updated to reflect the Lot locations in Section 30 and Section 31. The attached maps further clarifies the location of the proposed PPU. The applicant does not intend to or is proposing the irrigation of BLM property.

The applicant has no concern regarding IDWR including a condition on the water rights that state "Place of use does not include federal public lands."

BLM should be able to withdraw their protest after IDWR accepts the Amended Exhibit B.
