PROOF ACKNOWLEDGEMENT LETTER

RE: Permit Nos. 95-9376 & 95-9377

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. The next step in the process of developing water rights is for the Department to conduct field examinations to determine and confirm the uses being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block

Subject: Additional Information Request for Permits 95-9376 and 95-9377

Dear Permit Holders:

In 2007 IDWR issued permits 95-9376 and 95-9377 authorizing the development of two rights to divert 0.04 cfs of water from Coeur D Alene Lake water for domestic use for two homes on separate tax parcels in Government Lot 1 in the NE1/4 NW1/4 of Section 12, Township 49 North, Range 4 West. The parcels numbers for these properties are 49N04W122475 and 49N04W122485. You filed a Proof of Beneficial Use statement on March 13, 2017 for permit 95-9376 and May 1, 2017 for 95-9377 stating that homes were constructed and the water use had been developed in accordance with the permit.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that water has been put to beneficial use in accordance with the permit. For your convenience, I am enclosing a copy of permit listed above.

This permit qualifies for what is known as in-house exam or desk top review instead of an in-field verification inspection of the property. A verification review is necessary to move this permit forward to a water right license.

During my review of county records and aerial photos, I was not able to determine if there are homes on either of the properties described in these permits. Please provide documentation that each property has a home. This documentation could include, but is not limited to, pictures, copies of final home inspections, County documents showing the properties have a home, or anything that proves that there are homes on each of the two parcels. Once I receive this information, I should be able to move forward with the licensing process on both of these permits.

If you cannot provide the needed information, you can request that IDWR personnel go into the field to collect this information accompanied by yourself or your representative. For this to occur, please contact me within 30 days. If you would like your representative to be present, please have the name, telephone number, and email of your representative. Be aware that you and the representative must be available to be contacted for scheduling of the required visit before June 5, 2017.

Please provide the requested information June 5, 2017. If I do not receive the requested information or I have not been contacted by you by June 5, 2017, I will need to take action to void your permit under the provision of Section 42-219(8) of the Idaho Code.

If you have any questions, please contact me at 208-287-47856. Thank you for your attention to this matter.
