RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on Tuesday, December 13, 2016.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2017 to December 31, 2021. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.
5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

IN WITNESS WHEREOF, the parties have executed this Contract on the date following their respective signatures.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
13. When combined with all other rights, the leased rights shall provide not more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
14. Un-leased portions of rights 34-7179, 34-2330B, 34-7080B, 34-7121B, 34-7121A, 34-7092, 34-7077, 34-12376, 34-13840, 34-13842 are limited to irrigation of a combined total of 1,847.3 acres in a single irrigation season, a total combined diversion rate of 35.25 cfs, and a total combined annual diversion volume of 6,596.4 af.
15. The un-leased portions of rights 34-13659 and 34-13661 are limited to irrigation of a combined total of 37.4 acres in a single irrigation season, a total combined volume of 107.5.
16. The un-leased portion of rights 34-618 and the portion of ground water right 34-7179 associated with 34-618, when combined, shall not exceed a total annual maximum diversion volume of 423.1 af at the field headgate.

17. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
18. Rights 34-618, 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-7179, 34-12376, 34-13659, 34-13661, 34-13840, and 34-13842 are delivered through the Moore Diversion and/or the Timberdome Canal.
19. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the land authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
20. Should all or any portion of water right nos. 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-12376, 34-7179, 34-13840, and 34-13842 ever be curtailed as a result of a delivery call, the irrigated place of use for water right nos. 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-12376, 34-13840, 34-13842 (all describing a place of use of 258.6 acres) and water right no. 34-7179 (276.7 acres) shall be reduced by the number of irrigated acres authorized to be irrigated by the individual water right that is curtailed.

CONDITIONS APPLICABLE TO RIGHT(S) 34-618

21. The period of use for irrigation described above may be extended in seasons of unusual period characteristics to a beginning date of 04/20 and an ending date of 10/31 at the discretion of the Director of the Idaho Department of Water Resources.

CONDITIONS APPLICABLE TO RIGHT(S) 34-7092

22. The period of use for the irrigation described in this approval may be extended to a beginning date of 4/1 and an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/15 and after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 7/15/2002.

OR

☒ A part of the water right is being offered to the Bank.

If a portion of the water right is being offered, complete Attachment 2.

3. MAP

Attach a map of the point(s) of diversion and place(s) of use proposed to be idled by this lease application. Make sure the idled place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to idle. If the water right proposed for lease is located within a permissible place of use (PPU) and portions of the PPU will continue to receive water from non-leased water rights, clearly outline on a map the acres within the PPU that will continue to be irrigated, as well as acres that will be idled during the lease term. Label the map **Attachment 3**.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☒ No ☐
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).

- B. Please provide a description of the current water diversion and delivery system.

Nothing will change from current diversion practices into Moore Canal. Water is only used differently at the tail end of this system from Applicant's pond into Applicant's ditch that crosses over to the Isom Farm.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. All water rights associated with the place of use are: 34-618, 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-7179, 34-12376, 34-13659, 34-13661, 34-13840, and 34-13842.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. This water right portion was leased and rented last year combined with all other stacked water rights for a total of 5.26 cfs through the Idaho Water Supply Bank.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?

If yes, describe.

Yes ☐ No ☒

5. SALE/LEASE AGREEMENT

A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☒.

If lease, specify the years when the use of water will be suspended: 2017 to 2021 (maximum lease period 5 calendar years).
(Year) (Year)

B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.
Current rental rate.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

Written Consent

April 7, 2015

To: Idaho Department of Water Resources

From: Big Lost River Irrigation District

Subject: Telford Lands LLC Water Bank Consent: Water Right Nos. 34-13659 and 34-13661.

4-17-2015
The Big Lost River Irrigation District ("BLRID") is the owner and operator of the Moore Diversion and ~~Westside Canal~~. Telford Lands LLC owns Water Right Nos. 34-618, 34-13659, and 34-13661 (the "Water Rights"), which authorize diversion of water from the Big Lost River, and has a valid transport agreement for these water rights to be delivered through the Moore Diversion and ~~Westside Canal~~. It is our understanding that Telford Lands LLC has submitted water bank applications to allow a stacked portion the Water Rights as well as a stacked portion of ground water rights allocated to approximately 276 acres of pivot corners to be used on lands that the water right acres are not currently appurtenant to. The use of water on different acres will not require any changes to how the Water Rights will be diverted and conveyed through the BLRID system, and therefore, will not have an impact on water deliveries through our system. The water bank lease and rental were previously in place, and we understand that the current applications are to continue what was done previously. BLRID has no objection to Telford Lands LLC's water bank applications, and I have the authority on behalf of BLRID provide this consent.

RE: WATER SUPPLY BANK LEASE CONTRACT FOR WATER RIGHTS 34-618, 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-7179, 34-12376, 34-13659, 34-13661, 34-13840 and 34-13842

Dear Lessor:

Water rights 34-618, 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-7179, 34-12376, 34-13659, 34-13661, 34-13840 and 34-13842 were leased into the Water Supply Bank (Bank) as of December 13, 2016, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2021**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Debbie Budd
Water Supply Bank

To: Idaho Department of Water Resources
From: Big Lost River Irrigation District
Subject: Telford Lands LLC Water Bank Consent: Water Right Nos. 34-618, 34-13659, and 34-13661.

The Big Lost River Irrigation District ("BLRID") is the owner and operator of the Moore Diversion and Canal. Telford Lands LLC owns Water Right Nos. 34-618, 34-13659, and 34-13661 (the "Water Rights"), which authorize diversion of water from the Big Lost River, and has a valid transport agreement for these water rights to be delivered through the Moore Diversion and Canal. It is our understanding that Telford Lands LLC has submitted water bank applications to allow a stacked portion the Water Rights as well as a stacked portion of ground water rights allocated to approximately 276 acres of pivot corners to be used on lands that the water right acres are not currently appurtenant to. The use of water on different acres will not require any changes to how the Water Rights will be diverted and conveyed through the BLRID system, and therefore, will not have an impact on water deliveries through our system. The water bank lease and rental were previously in place, and we understand that the current applications are to continue what was done previously. BLRID has no objection to Telford Lands LLC's water bank applications, and I have the authority on behalf of BLRID provide this consent.

Good Morning, We received a lease/rental package from Mike Telford. It appears that this is the same transaction he has engaged in for the past two years. According to the most current bank application he intends to file a transfer to make this change permeant. I have attached an updated version of my memo and a copy of the most recent application. Please let me know if you have any questions or concerns.

Rob,

After speaking with the Department's legal staff, the Department is going to need an updated consent from Big Lost River Irrigation District (BLRID) before processing these applications to lease the Telford waters rights to the Bank.

I don't know if you are aware but the Department has gotten some phone calls from the BLRID regarding consent and notification of leases and rentals of the Water Supply Bank. BLRID needs to submit consent for every new lease application the Dept. receives. Since these applications are new, even though they are the same as previous leases, an updated consent will be needed. I realize the Department accepted the consent on the WSB Lease applications from the 2016 season, but this was an oversight.

Also, if you look at the highlighted area on the attached consent, Mike Telford's name was written in as personally appearing before the notary and signing the consent. Joel S. Andersen's signature should have been notarized, not Mike Telford's.

If you have any questions, please contact this office at (208) 287-4800. Thank you.

Jean:

Thanks for your email below and processing of the Telford water bank applications. I've attached the consent dated in 2015 that you are referring to. I reviewed it once again, and believe that it covers future leases as well (including 2017). I also checked our 2016 applications, and we used the same consent in 2016 as well, and where the water bank applications are the same for 2017, the consent should be sufficient for 2017 as well. While the consent has a date on it, the consent language does not limit it to only 2015. It was intended to apply to the same three water right portions associated with the 276 acres as long as the applications were the same, and they are. Additionally, once the 2017 applications are approved, we will file a transfer to be processed this spring so that future water bank applications are not needed. BLRID does not have a board meeting scheduled for some time to discuss a new consent, and we would prefer to continue forward now on the processing of the water bank applications. Please review the consent again, and let me know the consent is sufficient.

Thanks,

Robert L. Harris

Thank you.

The applications to lease the Telford water rights to the Bank include a consent letter from the Big Lost Irrigation District. This authorization has an April, 2015 date on it. The Department is going to need an updated letter of consent from the Big Lost Irrigation District. As soon as the Department receives the consent we can continue processing these applications.

Mr. Harris,

The Department is in the process of reviewing the applications from Telford Lands for acceptance in the Water Supply Bank. I was curious if you had shapefiles for the maps that are included with the applications? They would be of great help if you do.

Thank you.
