Legal Notice Not Required
5/4/2017

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

MEMORANDUM

Date: May 4, 2017
To: Transfer 81613 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes creating a 984.6 acre permissible place of use (PPU) for two Irrigation ground water rights: 43-2515 (16.06 cfs; 873 acres; 3492 af) & 43-10624 (expansion of 43-2515; 48 acres). Both rights share the same points of diversion (PODs) and there will be no changes to the PODs. Current place of use (POU), proposed PPU and PODs are all located approximately 10.5 to 12 miles north and 7.9 to 9.9 miles east of Malta.

The applicant's representative has provided a 206 map for the 2017 irrigation season along with the transfer application.

Overlap analysis finds no other irrigation rights within the proposed PPU or diverted from the POD. POD and PPU are located in Water District 143 and the Raft River Critical Ground Water Management Area. Water District 143 Watermaster comments will be solicited.

This application only modifies the place of use and there is no actual hydrologic change. Therefore, pursuant to Section 42-222, Idaho Code, this transfer can be processed and approved without advertising.

- **Authority to File:** IDWR records indicate the applicant currently owns the water rights and all lands involved in this transfer.
- **Water Right Validity:** Water rights were decreed in the SRBA on 6/28/2002. Recent aerial and satellite imagery indicate the property involved with this transfer appears irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.

- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing

Re: Fee Evaluation

Filing fees charged for transfer application #81613 were based on the proportional increase in acres to the PPU: $63.6 \text{ acres added} / 921 \text{ acre in current PPU} = 6.9\% \text{ increase}$ times total authorized 16.06 cfs = 1.1 cfs, which makes the filing fee \$580.00 based on the current fee schedule. Applicant's representative paid \$1780.00 based on the total cfs in transfer application on receipt # S036103. A refund request for \$1200.00 to the applicant's representative is being processed.
