4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. *****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received four rental applications as lease/rental packages from Brockway Engineering on behalf of CSS Potato Farms, LLC. This is the third (Application 795) which was received on 02/28/2017. It requests to rent 0.84 cfs and 218.8 af to irrigate a 62.5 acres on a ½ pivot in Twp 15S Rge 33E section 9 in the East side of the NE quarter.

AUTHORITY TO FILE: This application was signed by Reagan Grabner who is listed on the Idaho SOS website as a manager of CSS Potato Farms LLC. They included a Farm lease agreement for 2017 in which they specified that the owners share has been paid in full. Therefore, this rental will be for the admin fees only.

WATER RIGHT VALIDITY: Water rights 17-7007, 17-2028, 17-2030 and 17-2045 had portions placed in the bank for this and other rental packages in 2017 by Holbrook Farms (New Owner).

INJURY TO OTHER WATER RIGHTS: No injury concerns are noted.

ENLARGEMENT OF USE: Combined limits will apply to this rental according to what is on the water rights rented. These water rights do not provide 0.02 cfs per acre. The season of use will remain what is on the water rights. No other enlargement concerns are noted.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.
