ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The point of diversion for this water right is in Wyoming in T44N R118W section 22 NESW. The point of diversion shown above is where the conveyance system enters Idaho.
13. The quantity of water diverted under water right 22-119900 shall be from the portion awarded to Idaho and deducted therefrom as set forth in *Roxana Canal Co. v. Daniels*, Equity No. 2447 (D. Wy. Feb. 4, 1941).
14. The unleased portions of the rights listed below are limited to a total combined diversion rate of 1.54 cfs. Combined Right Nos.: 22-7394, 22-11900.
15. The unleased portions of the rights listed below are limited to the irrigation of a combined total of 76.7 acres in a single irrigation season. Combined Right Nos.: 22-7394, 22-11900.
16. The use of water for irrigation under this right may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
17. Water right 22-11900 is also recorded as Wyoming Certificated Water Right No. 7308E.
18. This water right is subject to the delivery provisions contained in *Roxana Canal Co. v. Daniels*, Equity No. 2447 (D. Wy. Feb. 4, 1941) ("Roxana decree"). Nothing in this Partial Decree is intended to relieve or alter the state of Idaho nor the state of Wyoming from their obligations contained in the Roxana decree.
19. Water right 22-11900 is delivered through South Side Ditch.
20. Use of water under these rights may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

- B. Please provide a description of the current water diversion and delivery system.

Water is delivered from Teton Creek through the South Side Ditch and is diverted into a mainline irrigation system. The point of diversion for this water right is in Wyoming in T44N R118W Section 22NESW.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. Water right no. 22-7394 is co-mingled with this water right and is diverted from a well and delivered through the same mainline.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Portions of water rights 22-7394 and 22-1190 were leased into the Water Supply Bank in 2014. Prior to that they had not been used on these lands for several years.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.
