Blake Jordan
IDWR – Eastern Region
900 N Skyline Drive
Idaho Falls, ID 83402

Mr. Jordan,

Attached is an application for transfer and associated documentation designed to modify the place of use for water right 35-7173. The irrigation system on this farm was converted from circle pivots to wheel lines in 2016 without modification of place of use. This transfer seeks to match the water right details with the current configuration.

Whalen's recognize the place of use requested is larger than the acre limit on the water right. A map of irrigated acreage for 2017 is attached. Whalen's will also pursue a water bank lease to cover the remainder of the place of use. If the water bank transfer cannot be completed prior to the 2017 irrigation season, the acreage within the POU but outside of the 2017 shape will be left idle. The long-term goal is to transfer sufficient water to irrigate the entire place of use submitted with this transfer.

If there is any documentation lacking, please let us know.

Sincerely,

Jaxon Higgs
