James:

This email is a follow up to a prior discussion we had regarding Water Right Nos. 35-12912, which is owned by Jeffrey and Chana Duffin, and Water Right No. 35-7853B, which is owned by Pearl Funk, Elizabeth Maland, Ewald Funk, and Peggy Simpson. These water rights are both appurtenant to approximately 80 acres owned by Funk, but is irrigated with a well and diversion system developed, owned by, and operated on property immediately west of the Funk's 80 acres.

As evidenced by the attached documents, Peggy Simpson attempted to have ownership of 35-12912 changed on the Department's records to be owned by her and the other three co-owners of 35-7853B. As described in further detail below, we agree with IDWR's actions not to take any action on the ownership change request, and hereby formally request that IDWR take no such action given the status of the law on the conveyance of water rights.

Water Right 35-12912 was claimed as a beneficial use water right in the SRBA, and ultimately decreed in the SRBA on January 31, 2002 with a April 1, 1961 priority date. The proof of application to beneficial use was evidenced by an affidavit from Vern Duffin wherein he described the irrigation of the Funk property beginning in 1961. Mr. Duffin's irrigation of the Funk property was done in advance of the statutory amendment in 1963 that required all new water rights to be developed through the application and permitting process. As you know, with the issuance of a partial decree to the Duffins, it is confirmation of an existing and valid water right, an element of which includes the water right owner. It makes no difference that this water right was originally appropriated as a "beneficial use" or "constitutional method" water right.

Water Right No. 35-7853B is a split of a prior parent water right (35-7853) which has an April 24, 1979 priority date. This water right was developed through the application and permitting process as was necessary given the 1963 statutory amendment regarding the appropriation of water rights. The first page of an application for amendment of this permit, which was included in documents submitted to the Department, states that the Duffin point of diversion is "owned by neighbor, Vern Duffin. Applicants have agreement with him to use water from his well to irrigate the W1/2SE1/4, S15."

Up until the partial decree for 35-12912 was issued, it was an unadjudicated, but nevertheless valid water right. By statute, Idaho defines "real property" to include water rights. Idaho Code 55-101. ("Real property or real estate consists of: 1. Lands, possessory rights to land, ditch and water rights, and mining claims, both lode and placer. 2. That which is affixed to land. 3. That which is appurtenant to land.") The first section of Idaho's water code, Idaho Code § 42-101, provides that a water right

become[s] the complement of, or one of the appurtenances of, the land or other thing to which, through necessity, said water is being applied, and the right to continue the use of any such water shall never be denied or prevented from any other cause than the failure on the part of the user thereof to pay the ordinary charges or assessments which may be made to cover the expense of delivery of such water.

(emphasis added).

Because water rights are defined as real property, Idaho court decisions hold that as an appurtenance to land, irrigation water rights beneficially used on real property are presumed to be included in a sale of the property unless the

water right or water entitlement is expressly reserved in the deed or it can be clearly shown that it was known to both parties that the water right was not intended to be conveyed. This has been confirmed as recently as 2010:

Unless they are expressly reserved in the deed or it is clearly shown that the parties intended that the grantor would reserve them, appurtenant water rights pass with the land even though they are not mentioned in the deed and the deed does not mention 'appurtenances.'

Bagley v. Thomason, 149 Idaho 799, 241 P.3d 972 (2010) (citing *Joyce Livestock Co. v. United States*, 144 Idaho 1, 56 P.3d 502 (2007)).

The general rule is therefore that water rights of any kind appurtenant to the property are transferred with the property unless the water rights, or one of the water rights, are specifically reserved with language in the deed or purchase and sale documents. This is the law *even if* the deed does not mention the water rights and *even if* the deed does *not* contain the generic "appurtenances" language. The above rules concerning conveyances of land involving water rights by deed also apply to deeds of trust and mortgages. See Idaho Code § 55-813 (the term "conveyance" embraces every instrument by which an estate or interest in real property is created, alienated, mortgaged or encumbered, or by which the title may be affected, except wills).

As an appurtenance, it can be appropriated for use on property not owned by the water right holder as long as the law is followed in appropriating the water right, the result of which is separate ownership of the water right and the underlying property:

"One who has appropriated water and beneficially used it has a right to the use of the water independent of his ownership of the land." *Sanderson v. Salmon River Canal Co.*, 34 Idaho 145, 160, 199 P. 999, 1003 (1921). Idaho has long recognized that an appropriator can obtain a water right in waters located on federal land. *Keiler v. McDonald*, 37 Idaho 573, 218 P. 365 (1923); *Short v. Praisewater*, 35 Idaho 691, 208 P. 844 (1922); *Sarret v. Hunter*, 32 Idaho 536, 185 P. 1072 (1919); *Le Quime v. Chambers*, 15 Idaho 405, 98 P. 415 (1908); *Hillman v. Hardwick*, 3 Idaho 255, 28 P. 438 (1891). The appropriator simply must follow Idaho law in obtaining that water right.

Joyce Livestock Co. v. United States, 144 Idaho 1, 7, 156 P.3d 502, 508 (2007).

This is the case with 35-12912—it was appropriated under Idaho law as a beneficial use water right that has now been confirmed with the issuance of a partial decree in the SRBA. Because 35-12912 is owned independent of the underlying property, it cannot be conveyed by Pearl Funk, Elizabeth Maland, Ewald Funk, and Peggy Simpson to anyone else. Consequently, we agree with IDWR's actions not to take any action on the ownership change request, and hereby formally request that IDWR take no such action given the status of the law on the conveyance of water rights.

If you have any questions, let me know. Thank you for your attention to this. Please forward this email to other members within the Department that may be involved in this matter or may be aware of it.

DEED OF COUNTY PROPERTY

INSTRUMENT NO. 38009

THIS INDENTURE, Made and entered into this 16th. day of March A.D. 1943
by and between the County of Bingham, State of Idaho, party of the first part, and Ewald Funk
of American Falls, Idaho, party of the second part.

WITNESSETH: That Whereas, by an order duly given, made and entered by the Board of County Commissioners of said County, in meeting assembled on the 9th day of April, 1940, it was found and determined that the certain tract or parcel of land belonging to said County and hereinafter particularly described, was not necessary for the use of said County, and that the same should therefore, pursuant to the provisions of Section 30-708, Idaho Codes Annotated, as amended, be sold at public auction on the 14th day of May, 1940; and

WHEREAS, Pursuant to said order and the statute in such case made and provided, the sale was advertised on the 13th day of April, 1940, being thirty days prior thereto, in The Daily Bulletin newspaper published in said County (or posted in five public places of the said county), affidavit of the giving of which notice has been duly filed with the Clerk of the Board of County Commissioners of said county; and

WHEREAS, At the time advertised for said sale the said land was, by the Clerk of said Board, sold at public auction to the party of the second part herein, who was the highest bidder therefor, for the sum of \$ 80.00 cash lawful money of the United States of America, which said sum the said party of the second part has paid to the Treasurer of the said Bingham County;

NOW, THEREFORE, For and in consideration of the said sum heretofore mentioned thus paid, and pursuant to the law in such cases made and provided, the party of the first part herein does hereby grant, bargain, sell, convey and confirm unto the said party of the second part, his heirs and assigns forever, all that certain tract or parcel of land situated in the County of Bingham, State of Idaho, and more particularly described as follows:

Southwest Quarter (SW $\frac{1}{4}$) of Section 14, and Southeast Quarter (SE $\frac{1}{4}$) of Section 15, all in Township 6 South of Range 30 East Boise Meridian, according to the recorded plat thereof, on file in the office of the County Recorder, Bingham County, Idaho.

Together with all and singular the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining; to have and to hold the same unto the party of the second part, his heirs and assigns forever.

IN WITNESS WHEREOF, The Board of County Commissioners of said County has caused the name of said County to be hereunto subscribed by the chairman of said Board, and the seal of said Board of County Commissioners to be hereunto affixed.

Done at Blackfoot, Idaho, the day and year first above written.

I, Vern R. Duffin rented the W1/2 of the SE1/4 of Section 15, Township 6 South, Range 30 East, from Pearl Funk beginning with the 1961 irrigation season. I installed a booster pump on my existing well in the SW1/4 of the SW1/4 of Section 15 (point of diversion for right 35-02485.) I have rented and irrigated this land continually since 1961, and approximately 5 years ago I installed a larger pump and motor, eliminating the need for the booster pump.

RE: Change in Water Right Ownership 35-12912

Dear Interested Parties:

The Department of Water Resources (Department) received your Notice of Change in Water Right Ownership for Water Right 35-12912 on February 10, 2017. The Department has placed your notice in the water right file, but the database record for the water right has not been updated.

Although your deed shows that you owned its irrigated place of use, Water Right 35-12912 was claimed in the Snake River Basin Adjudication (SRBA) by Vern R. Duffin & Marilyn Duffin (Duffins) in 1992. You did not file a competing claim or an objection, and the SRBA Court decreed Water Right 35-12912 in the Duffins' name in 2002. The Department considers a court decree confirming the elements of a water right to be a determination of ownership of the right.

Vern R. Duffin & Marilyn Duffin deeded Water Right 35-12912 to Jeffrey T. Duffin and Chana Duffin in 2016 without land. Since your documentation does not show that you acquired the water right from either Vern R. Duffin & Marilyn Duffin or Jeffrey T. Duffin & Chana Duffin since the Court issued its decree, IDWR cannot complete processing of your ownership change notice based on the information you submitted.

This determination does not affect your ownership of overlapping licensed Right 35-7853B for the same beneficial use. This right was applied for in 1979, was not subject to the Snake River Basin Adjudication since proof of beneficial use was filed in 1989 after the commencement of the adjudication, and the appropriation process was completed when the license was issued in 1994. Rights 35-7853B and 35-12912 represent a single beneficial use and must be evaluated together in any future actions. All owners must be included unless one of the parties prevails as the single owner.

The Department will hold your ownership change notice for 30 days to allow you time to submit additional information confirming your ownership of the water right. If you do not submit information within 30 days to show how you acquired the water right, IDWR will return your Notice of Change in Water Right Ownership form and supporting documents and request a refund of your filing fee.

If you have any questions, please contact this office.

Sincerely,

Jean Hersley

Because of the mandate issued by the Bureau of Water Resources, State of Idaho, in 1990 that all water rights must be active, that is the water must be in actual use on the land or the water right is no longer viable and because Vern Duffin has a licensed well situated on SW 1/4 of section 15 T3P 6S Range 30E EBM, established in 1953 from which water has been used to irrigate 80 acres T6S R30 Section 15 for 20 years; therefore, the water right usage from this well is assigned to W 1/2 of SE 1/4 80 acres more or less for _____ feet per second.

LICENCE NO 35-2485

Vern and Marilyn Duffin grant this water right free and clear to Pearl Funk, Ewald Funk, Peggy Simpson, Elizabeth F. Maland.

Dear Ewald & Paul

I have held up a few days to see for sure if we can get
beets for the other 2 fields.

Mr. Adams is quite sure there will be more beets available
in the near future.

As soon as I can get beets signed for these 2 fields
I will send the rent ^{to Adams} for them but I felt I better get
this much sent to you now.

Sincerely

P.S. I feel you should pay ^{them} me something for this
valid free water rights I am signing to you don't you?
