RE: Application for Permit No. 63-34340 *Response* to Additional Information Request Dated 3/27/17

Dear Mr. Hummer,

In order to provide you with the additional required information, requested in your letter dated 3/27/17, we have consulted with a licensed well driller, Jim Hutchings.

As per the well driller the formation is solid lava, no screens are necessary and the water bearing zone is between 200-300 feet.

Thank you for your assistance in this process, please let us know if there is any additional information you may require.

Sincerely,

A handwritten signature in black ink that reads "Katherine Smith". The signature is written in a cursive style with a large, looping "S" at the end.

Re: Application for Permit No. 63-34340 Additional Information Required

Dear Applicant:

Your recent application for permit proposing the use of water for irrigation is being processed. The application has been assigned a priority date but cannot be processed further until the following items are clarified:

- **7 - Description of Diverting Works**

Applicants who proposed to divert water within IDWR Administrative Basin 63 are required to provide an estimate of the interval from which water will be diverted (water bearing zone) prior to the advertisement of their applications. This information is necessary because there are several water availability concerns within Basin 63. The water bearing zone is different than the depth of the well because that wells usually access water at different zones along the length of the well depending on how it is screened and which soil layers contain water. The water bearing zone can be determined by comparing the water bearing zones of similar wells near the proposed project site, or by consulting a licensed well driller. Well data can be found using our website at <http://idwr.idaho.gov/wells/>.

Please submit the requested information within thirty (30) days for application processing to continue. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will become void if a written reply is has not been received within the next thirty (30) days. Refunds are not issued for voided applications. IDWR forms and other information are available on the internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.
