RE: Permit No. 63-34148

Dear Sir,

I am requesting a waiver on CONDITIONS OF APPROVAL item number 4:

Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

The drainage water is backed up for approximately ½ mile before the diversion point. Therefore it is not feasible to install a measuring device at the diversion point. There is a diversion gate at the diversion point to divert the water to my property.

Thank you for considering my request.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Skogsberg", with a long, sweeping horizontal line extending to the right.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 63-34148

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Darla Block
