RE: Application for Transfer of Water Right No. 22-14208 Submitted in the Name of Vest Family Limited Partnership.

Dear Blake:

Enclosed for processing is an *Application for Transfer of Water Right* to only change the point of diversion for Water Right No. 22-14208, which is a surface water right diverted out of South Leigh Creek in Teton County, Idaho. The transfer proposes to change the point of diversion of this water right from the Bell-McCracken ditch to the Sorenson ditch that is depicted on the enclosed map. The Sorenson ditch is much closer to the authorized place of use of Water Right No. 22-14208. My client has had historical difficulties in having any water delivered from the Bell-McCracken ditch for many years, despite his efforts to have water diverted through the ditch. By moving the point of diversion closer to my client's property, and with some ditch modifications to the Sorenson ditch, it would be a much better arrangement for my client to irrigate his property. For your information, my client is the only water right owner to currently divert from the Sorenson ditch, which is the current authorized point of diversion for three South Leigh Creek water rights, which are Water Right Nos. 22-14036, 22-14038, and 22-14040.

We have enclosed a check in the amount of \$660.00 as the filing fee for this transfer, and included a printout from the Idaho State Bar evidencing my authority to act as an attorney and represent the Vest Family Limited Partnership in this transfer application.

Please let me know if you have any questions or concerns, or if you assign this to another agent within the Department, please have them contact me with any questions or concerns. We appreciate your attention to this matter.

Best regards,

For Robert L. Harris
