Subject: Petition for reconsideration
of the "preliminary order"
issued for License No. 2-10464

I petition the IDWR for reconsideration of the
"preliminary order" issued for License No. 2-10464.

On October 1, 2015 when the field examiners tested
our pumps, it became apparent that some of
the pumps were operating poorly. After they
were examined by the pump company, it was
determined that they need significant repair or
cleaning (i.e. debris in impellers).

I feel that these pumps pumped considerably
more during the development period than at the
time of the field examination.
