MEMORANDUM

TO: Transfer No. 80655
FROM: Rachel Sommer
DATE: December 20, 2016
RE: Evaluation of Application

Summary of Application Proposal

The following proposal is to be met following a transfer approval in the name of Cada LP. The purpose of this transfer is to change irrigation storage and irrigation from storage in right 67-7333 to aesthetic storage and recreation storage. A point of diversion change is also proposed to identify the diversion location that has been historically used.

Location of Application Proposal

The proposal lies approximately one half mile north of Big Flat Rd between S Crane Rd and Riley Butte Rd in Midvale Idaho.

Summary of Information Submitted

Authority to File:

The property and water right reflect ownership of Cada LP.

Water Right Validity:

The right within this transfer was decreed in the SRBA as follows:
67-7333 was decreed on 10/20/2008.

Rights presumed valid; beneficial use confirmed via imagery from 2015 aerial imagery.

Injury to Other Water Rights:

No injury to other water rights should occur through this transfer as long as the right holder abides by the amount of water and combined use limitations for the right in this transfer.

Enlargement of Use:

No enlargement should occur under the proposed transfer application. The application proposes to change the nature of use from irrigation storage and irrigation from storage to aesthetic storage and recreation storage and to change the location of the point of diversion.

The historical use from irrigation storage and irrigation from storage has been for 68.0 af for irrigation of 73.6 acres. The applicant's proposal to modify the uses to uses comparable, aesthetic storage and recreation storage, and the historical consumptive use will be reduced because the applicant's ability to irrigate from this right will cease.

The POD was recorded incorrectly on the right; the applicant proposes to correct this to the location the water has been historically diverted from. The correction identifies the POD in the same source and will not affect the water supply because of the historical use. Historically refills beyond the initial fill were not accounted for under right 63-7333. To ensure enlargements will not occur, IDWR will add conditions limiting the right authorizing a onetime fill of 68.0 af for a 14.0 acre pond. Seepage and evaporation will not be covered under a transfer approval.

Overlapping POU/POD:

POU overlap – None.

POD overlap – None.

Local Public Interest:

It is within the local public interest to allow property owners to change their right(s) to reflect the beneficial uses that are actually occurring and are within the law.

On December 16, 2016 IDWR's Dam Safety staff recognized the pond has a regulated structure in place (Craig Dam), and requested condition R40 be added to an approval.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

Summary of Application Approval / Denial

The application is consistent with criteria of I. C. § 42-222 and should be processed. Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

Rachel,

Yes, Craig dam (67-7333) is a regulated structure, and the current storage authorization certificate is good through 12/31/2018. I like that we add this condition, hopefully that will motivate dam owners to complete recommended actions based on our inspections.

Thanks,

Erik

RE: 63-7333 / 80655

Erik,

I am currently processing the attached application for transfer that includes a nature of use change for 68.0 af with a pond 7' deep at its deepest point (per the attached field report). ArcMap shows this dam as being "regulated". Is a certificate needed for this dam and if yes, I will add the below condition to my draft approval.

- R40 - The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
