RE: Permit No. 85-15781

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 762-2800.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held.
- ii. The final agency action was taken.
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: Adam Frederick

Date: 03/27/2017

Re: Application for a Permit to Appropriate Water within the Salmon and Clearwater River Basins.

Re: Regional Analysis and Recommendation in accordance with Water Appropriation Rules (IDAPA 37.03.08.040.05).

Water Supply Information

Water from the unnamed stream on applicant's property should be available.

Good Faith, Delay, or Speculative Information

The applicant plans to divert water for his/her own use on property that he/she owns and there are no known issues with any other party.

Financial Resources Information

No significant resources required because the pond is already built.

Local Public Interest

The Idaho Department of Fish & Game and the Department of Environmental Quality have been asked to comment by the Idaho Department of Water Resources. Department of Environmental Quality responded by letter that this proposed action should not be allowed when flows are less than 1 cfs. Idaho Department of Fish & Game did not respond.

Injury to Other Water Rights

The proposed diversion is from an unnamed stream tributary to Threemile Creek. The IWRB holds a MSF water right 85-15623 on Threemile Creek. The MSF is subordinated to all DCMI development plus up to 0.2 cfs of non DCMI development. As such, the proposed use will not injure the MSF.

Recommendation

The Northern Region recommends proceeding with the processing of this water right application.

Subject: Application for Permit to Appropriate Public Waters of the State, Ident. No. 86-15781

Dear Mr. Frederick:

DEQ has received a request for comment on the approval of a water right application to draw 0.2 cfs of water from an unnamed tributary to Threemile Creek, 2.2 total acre-feet per year for an existing pond for stockwater, recreation, and fire protection. Assuming all federal, state, and local permits have been obtained, regulations met, and reviews completed, we can offer the following comments.

Flow data for the unnamed tributary to Threemile Creek is not included with the request for comment; therefore, DEQ cannot determine if removal of 0.2 cfs will impact existing aquatic life beneficial uses. We are concerned that there may not be sufficient flow outside the seasonal high flow period and recommend that the legally appropriated withdrawal be made during periods of seasonal high flow or at a minimum, flows greater than 1 cfs. At no time should the stream be allowed to go dry as a result of legally appropriated and allowable water withdrawals. In order to protect and maintain aquatic life beneficial uses, stream flow adequate to sustain existing aquatic life needs to be maintained (IDAPA 58.01.02.100.01).

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards or the conditions listed above, please contact me at (208) 983-0808, or by email at daniel.stewart@deq.idaho.gov.

Sincerely,
