RE: Change of Ownership for Water Right 13-620 (Split into 13-620 and 13-7989)

Dear Water Right Holder:

The Department was notified of an error on a previous ownership change you submitted in February, 2017. After further review of the deeds submitted with your request, water right 13-7989 was reduced from 27 acres to 26.7 acres. The diversion rate was also corrected from 0.11 cfs to 0.53 cfs. The Department apologizes for this error.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact me at 208-287-4942 if you have any questions concerning the enclosed information or this letter.

Sincerely,

A handwritten signature in black ink that reads "Jean Hersley".
