4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request

37-7926	irrigation	0.03	4.1	1.3		0.02	2.8	0.9
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.04	6.3	1.9
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. RE: **APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 37-2619 and 37-7926**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$105.40** was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 6.2 acre-feet. Since you have a private agreement with the lessor, **you are only obligated to pay the 10% administrative fee or \$10.54.** An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$10.54 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, within 14 days so I can complete processing.

MEMORANDUM

To: Water Right No: 37-2619 and 37-7926 Agreement # 116
From: Clay Webster
Date: 02/13/2017
Re: Review and Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: This application was received from Jim Speck on behalf of Thomas W. Weisel Trust on December 14, 2016. It proposes to rent 0.04 cfs, 6.3 af to irrigate 1.9 acres at the NENE and NWNE of sec 12 Twp 4N, Rge 17E. This will be in addition to the 3 acres of irrigation authorized under WR 37-7731. They acquired a rental of to cover 1.8 acres from the same water rights in 2016.

AUTHORITY TO FILE: The application was signed by Thomas W. Weisel, trustee of the Thomas W. Weisel Trust. Current taxlot information shows that they are the property owners at the POU and POD.

WATER RIGHT VALIDITY: Water right 37-2619 has a portion leased into the WSB as lease/rental packages. This right was decreed in 2010. The same portions have been leased into the bank since 2015. 37-7926 had a portion leased into the WSB as lease/rental packages. This right was decreed in 2010. The same portions of this right were leased into the bank since 2015. This rental was one of those packages for both of these rights. I have no forfeiture concerns.

INJURY TO OTHER WATER RIGHTS: The lease POD for 37-2619 falls just outside of the Ketchum Zone shape. I contacted the hydrology department and they confirmed that this water right's POD should be considered a part of the Ketchum Zone when applying the Water Supply Bank's Interim Ground Water Rental Policy for the Wood River Valley. This area was left off of the shape because the canyon narrowed to a point that it effected the new model that is being built for the WRV. The lease POD for 37-7926 falls within the Ketchum Zone as well as the rental POD.

ENLARGEMENT OF USE: Both the rental WRs and the WR 37-7731 have a diversion rate of 0.02 cfs. I have no enlargement concerns on this rental.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is subject to Water District # 37. Comments were requested from the regional office and the watermaster on 2/13/2017.
