Adam,

Just got a call back from Bob Eagle, Lot 6 will now be 6A, and the Utility Lot will be Lot 9.

Since he is using water now on Lot 9, can we proceed with our paperwork and do a new application for Lot 6A in the next few months?

I'm assuming we can download this online.

Thanks again,

Bob

Adam,

I talked with Bob Eagle again, who owns the home on the Utility Lot. The county is doing a new map for that lot and Lot 6 since he had to do a lot line adjustment to satisfy their requirements.

He indicated they may change the name of that lot to possibly Lot 9 or something other than maintenance or utility lot. He will try to find out with the county what they intend to do and when this will happen. It's all been approved, just waiting for the final paperwork and recording.

He is fine with leaving off Lot 6 and doing a future application for that lot as we had discussed.

I will be back in Las Vegas within a week or so, if you needed to mail something out.

Thanks again for your help and understanding,

Bob Davidson
