Re: Well Upgrade Fee Application for Permit 85-15783 (Application ID 81487)

Dear Mr. Peterson:

Your Application for Permit for your well water right is being processed. Our records indicate that a required \$125 well upgrade fee has not been paid for well D0061163. A upgrade fee is required when a well originally drilled for Domestic purposes will also be used for Irrigation.

Please contact me at (208) 762-2816 / 2800 about the well upgrade fee. It is important that you contact me to avoid delay in publishing legal notices and completing the Application for Permit process.

Respectfully,

RE: Amended Application for Permit required (CFS, Domestic, Irrigation, Stockwater)

RESPONSE DEADLINE: March 13, 2017

Dear Mr. Peterson:

Your Application for Permit for Domestic, Irrigation, and Stockwater uses from a well (Ground Water) was received by Idaho Department of Water Resources (IDWR) on Feb. 6, 2017. The Application must be amended to allow IDWR legal notice preparation and prevent voiding the Application.

Please provide a complete, amended Application, by March 13, 2017 to IDWR using the enclosed current Application for Permit form. **Please note that the Application line numbers have changed from your original Application, which was an outdated version.** Changes are required for the Point of Diversion (POD), Irrigation, Domestic and Stockwater use. **Please write 'AMENDED' at the top of the replacement form in bold letters.**

'GL4' must be on the Line 4 POD Government Lot. 'Ground Water' must be written in for the Source on Line 4 and the first (left) ¼ column left empty. The first (left) ¼ column is used only when the POD is a spring.

The Amended Application must include the Cubic Feet per Second (CFS) to be used for Irrigation during the season 3-15 to 11-15 on Line 5. The recommended amount is .03 CFS per acre for up to 5.0 acres.

Correct CFS amounts must also be provided. The amount recommended for one home Domestic use is up to .04 CFS. Domestic use can include a home and up to ½ acre of irrigation for lawn, garden, landscaping, etc. The recommended amount for Stockwater on Line 5 using your original Application information is .06 CFS. Line 6(a) must show a total CFS. The total may or may not be the sum of all CFS amounts shown on Line 5.

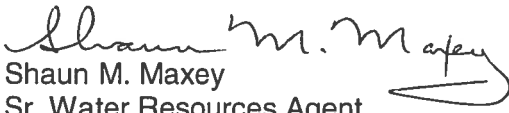

The Place of Use (POU) table (Line 9) should have a row for each use shown on Line 4. The total irrigated acres must appear at the bottom of the table.

Line 10 of your Application does not state if the Water Right 85-11451 POU overlaps the Domestic or Stockwater POU for well water use. The map is unclear on this point.

Please be advised that your current Application must be amended by March 13, 2017. IDWR will void your Application, in accordance with Idaho Code Section 42-204, if we have not received an Amended Application from you by March 13, 2017. Refunds are not issued for voided Applications for Permit. You can request a delay in amending your Application of up to six months by sending a letter to IDWR or contact me to schedule an appointment to amend your Application.

Please contact me at (208) 762.2816, or at the address shown above, if you need more information.

Respectfully,

Shaun M. Maxey
