1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
13. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

Narrative: The applicant wishes to place 45.3 acres of this right in the Bank. David Spurling, secretary, signed the application. This right was decreed in 2008 and has been in the Bank since 2010. Forfeiture is not an issue. When looking at aerial photography, it appeared the 16 acres in the SENE had been irrigated. I contacted Vic Conrad at Simplot and he assured me it has not been irrigated.

13 There are no overlapping rights. A condition on this water right states it is within WD 1.

Jean,
The SENE of Section 21 may appear green during certain times of the year from an aerial imagery perspective, but it is not irrigated. Same for the SWNW of Section 22. The land north of Crow Creek Road in SWNW of 22 is very steep and is not irrigated. Please let me know if you would like to visit this location once the snow melts to confirm.

Vic,
After looking at aerial photography, it appears the 16 acres located in T9S, R46E, Section 21 SENE were irrigated during the 2016 season and possibly other irrigation seasons as well. Please provide information on why this land appears to have been irrigated.

Also, you marked the 1.2 acres offered in T9S, R46E, Section 22 SWNW on the south side of Crow Creek Rd. This piece of land also appears to have been irrigated. However, the land on the north side of the road appears to be dry. Could this have been the land you wanted placed in the Bank?

If the information is not received within 30 days, the Department will continue processing your WSB lease application but will omit the acres located in T9S, R46E, Section 21 SENE from the lease.

Re: Water Supply Bank Lease/Rental Package for Water Right 24-4017.

Dear Remington:

Enclosed for filing is a package to lease a portion of water right 24-4017 to the water supply bank and to rent the same water for dust suppression purposes on a mine haul road used in connection with Simplot's Smoky Canyon Mine. Water has been leased/rented for this same purpose during the last several years.

I am also enclosing a check in the amount of \$250.00 to cover your fee for filing the enclosed lease application.

Sincerely,

Vic Conrad
