Re: Water Right Statutory Claim
Our Client: Boyd Campbell
Our File No. N-31.39

Mr. Cefalo:

Pursuant to your correspondence dated October 24, 2016, enclosed is my client's Claim to a Water Right for 5.92 cfs irrigation use on Mr. Campbell's parcel located in Section 15 and Section 16, Township 16 South, Range 38 East, containing 104.51 acres. We have also included the appropriate maps and documentation for filing with this Claim. Also enclosed is a check made payable to the Idaho Department of Water Resources for \$1,000.00, which is the filing fee for filing this claim.

If you recall, this claim was originally part of water right number 13-4284 as originally filed by Jay Norman Fannesbeck in 1984. But due to Mr. Fannesbeck's Corrected Claim filed on February 3, 2016, he eliminated my client's interest which was also appurtenant to Mr. Campbell's parcel. Please include this letter as part of your division's file for future reference. I have also enclosed correspondence with your office to be a part of the file, so there will be clarification concerning the issues with Mr. Fannesbeck when the Department is ready to start adjudicating this area.

We reserve the right to correct and supplement this Claim as needed. Please advise of any advertisements, protests, and any other action related to this Claim. If you require any further information or have any questions, please feel free to contact me. Thank you for your assistance in this matter.
