Label it **Attachment #7b**.

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

DEPT OF WATER RESOURCES
SOUTHERN REGIONAPPLICATION FOR TRANSFER OF WATER RIGHT
ATTACHMENT WSB:

TRANSFERRING WATER RIGHTS LEASED TO THE WATER SUPPLY BANK

Approval of a transfer application will not impact the terms of a Water Supply Bank Lease Contract. Any transferred water right or portion of a water right that is leased to the Water Supply Bank (Bank) shall remain unused while the lease is active.

If the transfer proposes to relocate the place of use of an irrigation water right, and the relocated acres include land currently idled due to a Bank lease contract, the applicant is required to identify the areas that will be idled at the new place of use for the duration of the lease contract. The acres to be idled should be clearly identified on the map created for Attachment 7B of the transfer application. The applicant should confirm the map is attached when completing the table below. If the leased portion of the place of use is not proposed to be relocated, a map is not required.

A Bank lease contract shall remain in effect until it expires, a new lease proposal is processed to replace it, or the water right is released from the Bank through written confirmation issued by the Water Resource Board. If the proposed transfer is approved, the water right owner will be provided sufficient time to allow the lease contract to expire before beneficial use of water at the new place of use will be expected. Meanwhile, water rights leased to the Bank are protected from forfeiture for the duration of the lease contract.

Water right owners who would like to adjust the terms of their lease contracts can either submit a new lease proposal on an Application to Lease a Water Right to the Water Supply Bank form, or they can request early termination of their lease contracts by completing a Request to Release a Water Right from the Water Supply Bank form. If a water right is leased to the Bank, and it is currently being rented from the Bank, the lease cannot be reduced or terminated until the rental agreement concludes. A request to release a water right or to submit a new lease application should be sent to the Department's state office. To find out if there are any rentals associated with a leased water right, please call a Bank representative at the Department at 208-287-4800.

In the table below, please provide the requested information for any water right that is both proposed for transfer and leased to the Bank. The information needed to complete this table can be found in your Bank lease contract. A copy of your lease contract can be obtained using the 'Search Water Rights' option on the Department's internet page at www.idwr.idaho.gov or by contacting any Department office.

The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes adding a new well as an authorized point of diversion within the A & B Irrigation District system. The proposed well is located approximately 8.5 miles north and 1.1 mile west of the intersection of E. Baseline Rd and N. Meridian in Rupert. The new well will be limited to the diversion of 6.0 cfs for use in the A & B Irrigation District system. Currently, 12 water rights allow for the diversion of 1100.0 cfs from 187 authorized diversion points (wells) located in Jerome and Minidoka counties for the irrigation of up to 66,686.2 acres within the system. The application will allow for the continued diversion of water from 188 authorized points of diversion to maintain the overall production capacity of the A & B Irrigation District system.

GW FINANCE CO LLC, 22 N YALE RD, DECLO, ID 83323; has filed Application No. 81264 for changes to the following water rights within CASSIA County(s): Right No(s). 43-10421, 43-10422, 43-10423, 43-13549, 43-13551, 43-13563, 43-13565, 43-13567, 43-13569, 43-13571, 43-13573, 43-13776, 43-13777, 43-13778, 43-13779, 43-196, 43-2335, 43-7122A, 43-7122B, 43-7311. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes the creation of a 792.8 acre irrigation Permissible Place of Use (PPU) for 12 ground water rights and 8 surface water rights (Raft River) which currently irrigate 792.8 acres with a total flow rate of 25.42 cfs on ground located approximately 14.4 to 15.4 miles east and 1.2 miles north to 0.7 mile south of the intersection of Interstate Highways I-84 and I-86 east of Burley. The rights are currently irrigating ground on three separate farms and this transfer will consolidate the rights into a single PPU in the same general area. One group of 10 rights irrigates 423.2 acres, another group of 4 rights irrigates 156.6 acres, and the final group of 6 rights irrigates 213.0 acres. After the transfer, 792.8 acres will be irrigated within the proposed 792.8 acre PPU. Currently, the rights in the three separate farms have distinct Points of Diversion (POD) for each farm. This transfer proposes to add a new well to each ground water right. In addition, this transfer will add the ground water and surface water PODs from each farm to the other two farms so that each ground water right will have 6 ground water PODs and each surface water right will have 4 PODs from Raft River.

MEMORANDUM

Date: February 13, 2017
To: Transfer 81430 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes creating a 3308.5 acre permissible place of use (PPU) for the following 21 ground water rights: 43-2346C, 43-2346D, 43-2346H, 43-2346J, 43-2346K, 43-2349, 43-2350, 43-2351, 43-2506, 43-2574C, 43-2576C, 43-4013A, 43-4014C, 43-4014E, 43-10478, 43-13268, 43-13681, 43-13682, 43-13683, 43-13684 and 43-13685. Proposed place of use (POU) and points of diversion (POD) are located approximately 7.0 to 10.0 miles north and 1.7 to 3.8 miles east of Malta.

Fifteen existing wells within the Proposed PPU will be added to all 21 ground water rights. All water rights used in the proposed PPU are included in this transfer and will have a combined limit of 48.46 cfs and will be limited to the irrigation of 3019 acres. All PODs are located in Water District 143 and Watermaster comments will be solicited.

Eighteen of the water rights currently have portions of the rights leased to the Water Supply Bank through 2017 and those rights are as follows: 43-2346C, 43-2346H, 43-2346J, 43-2346K, 43-2349, 43-2350, 43-2506, 43-2574C, 43-2576C, 43-4013A, 43-4014C, 43-4014E, 43-10478, 43-13681, 43-13682, 43-13683, 43-13684 and 43-13685. The transfer application is proposing to merge six existing POUs into one large PPU without rearranging any acres and will not change current irrigation practices. Therefore, the transfer can be processed without any impact or changes to the water supply bank leases.

The transfer application indicated that Northwest Farm Credit Services has liens on lands involved in this transfer and a letter was included with the application indicating they consent to the proposed changes. Further research indicated that several of the water rights (43-2346C; 43-2346D; 43-2346H; 43-2346J; 43-2346K; 43-2349; 43-2350; 43-2351; 43-2506; 43-2574C; 43-2576C; 43-4013A; 43-4014C; 43-4014E; 43-10478 and 43-13268) have Zions National Bank listed as a security interest. The applicant's representative was contacted and informed that a statement from that lienholder would also be required prior to transfer approval. Additionally, Travelers Insurance was also listed as a security interest on water rights 43-13682; 43-13683; 43-13684 and 43-13685. A letter indicating the mortgages with Travelers Insurance had been satisfied in 2004 was provided with a previous transfer (#77072; 6/2011), but the parent rights (43-2576C; 43-4013A; 43-4014C and 43-43-4013E) had been split in an ownership change in 2010 and the security interest was not removed from the children rights listed above at that time. I have removed Travelers Insurance as a security interest from those rights based on the

information provided with transfer #77072 and it is also included with this memo.

- **Authority to File:** IDWR records indicate the applicants currently own the water rights and all lands involved in this transfer. A contract of agreement was provided with the application indicating both applicants consent to use of their water rights within the proposed PPU and that each applicant will retain ownership of the water rights in their name.
- **Water Right Validity:** Water rights 43-2346C, 43-2349, 43-2350, 43-2506 and 43-10478 were decreed in the SRBA on 6/28/2002. All the other water rights in this transfer were decreed on 5/1/2002. Recent aerial and satellite imagery indicate the property involved with this transfer appears irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing

Subject: Additional Security Interest on Moss Water Rights

Greg,

Transfer #81430 in the name of Dusty Farms LLC and Raft River Valley Farms LLC currently has Zions National Bank listed as the Security Interest on the following water rights: 43-2346C; 43-2346D; 43-2346H; 43-2346J; 43-2346K; 43-2349; 43-2350; 43-2351; 43-2506; 43-2574C; 43-2576C; 43-4013A; 43-4014C; 43-4014E; 43-10478 and 43-13268. The Department will also require a statement from them either agreeing to the proposed changes or indicating they no longer hold an interest in those rights before the transfer can be approved.

Thanks for providing the Northwest Farm Credit Services letter upfront. There was another additional security interest listed (Traveler's Insurance), but after researching the water rights we came to the conclusion that only the Zions National Bank was still a potential lienholder.

Thanks for your assistance,

Bill

RE: Dan Moss - Release of Mortgage/Travelers Insurance Company

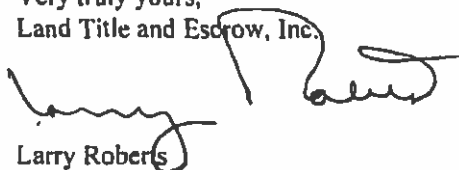

Dear Bill:

Enclosed with this letter please find two recorded Satisfaction of the Travelers Insurance Company mortgages against property owned by Daniel D. Moss and Jann Moss in Cassia County, Idaho.

We talked earlier today about the records of the Department of Water Resources showing a lien against the real estate which Dan intends to transfer certain rights from to an additional piece of property that he owns. I believe these are the only two Satisfaction of Mortgage by Travelers Insurance Company on Daniel D. and Jann Moss' property in the Idahome area.

Should you have any questions concerning this letter, or need additional information, please do not hesitate to contact me.

Very truly yours,

Re: Dusty Farms LLC and Raft River Valley Farms LLC

Dear Mr. Skinner:

Dusty Farms LLC and Raft River Valley Farms LLC have entered into an agreement to create a permissible place of use (PPU) with water rights in which they own. The proposed PPU is located in Township 11 South Range 27 East Section 20 East ½, Section 21, Section 28, Section 29 East ½, SWNW, SENW and SW ¼, Section 32 and Section 33. There are 15 wells on the properties and all 15 wells are connected hydraulically by water delivery mainlines.

There are 21 water rights in the PPU that can irrigate 3,019.0 acres. The ownership of the water rights will not be changing with the proposed transfer.

Dusty Farms LLC owns water rights 43-13681, 43-13682, 43-13683, 43-13684 and 43-13685.

Raft River Valley Farms LLC owns 43-4013A, 43-2574C, 43-2576C, 43-5014C, 43-4014E, 43-2346H, 43-2346K, 43-2346J, 43-2346C, 43-2346C, 43-2349, 43-2350, 43-2506, 43-10478, 43-2346D, 43-2351 and 43-13268.

There are 199.0 acres of water rights that are under lease contract for the 2017 and 2018 irrigation season through the Idaho Water Supply Bank.

The new POUs for the water rights are defined in the transfer application. The current combined water limits should remain unchanged by the approval of this transfer.

The beneficial use and period of use will not be changing with the transfer. No new wells are proposed with the transfer.
