3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Jean,

The City of Chubbuck has acquired many irrigation rights over the last ten years, to address future growth of the city. The water rights were put in the bank until the city grows enough to need the additional water. I do not have any concerns with the proposed WSB leases.

Subject: city of Chubbuck WSB Lease Applications

James,

The City of Chubbuck has submitted applications for 14 water rights to be leased to the Bank. I am waiting on information for water right 29-14016 as they only want to put a portion (67.9 acres) of the right in the Bank. Questions were how they determined the number of acres under water right 29-14016 were available for lease and I asked for a map of the idled acres. Since I need information for water right 29-14016 that put the lease for 29-14058 on hold also since they have combined limits.

All review memos and draft contracts are available for review at:

13	Narrative: This right was acquired by the City of Chubbuck for future use and has not been used at the transfer approved POU. Rodney Burch, public works director, signed the application. This right was decreed in 2002 and was used at the previous POU and has been in the Bank since 2012. Transfer 77438 appears to tie this right with 29-14013 but all the limits are additive. This right can be rented by itself. Thi right is currently within WD 120.
