RE: Change of Ownership 34-302, 34-7019B & 34-10056B

Correction for 2016 Ownership Change

Original water rights decreed as follows:

34-302
Acres 53
cfs 2.12

34-2252 (Over lapping water right)
Acres 40
cfs 0.80

34-7019
Acres 132
cfs 1.32 irrigation
cfs 0.02 domestic

34-10056
Acres 132
cfs 0.14

Water rights 34-302, 34-2252, 34-7019 and 34-10056 are limited to 132 acres and 3.52 cfs

Water right 34-7019 & 34-10056 are limited to 1.32 cfs and 462 AF

Water right 34-7019 acre limit 118

Water right 34-10056 did not see the enlargement acres on Partial Decree as referenced in the split Total of the split water rights 14 acres

The ownership change filed in 2016 was for water right numbers 34-2252 (all), 34-7019 (portion) and 34-10056 (portion)

The 2016 an ownership change split was complete as follows:

34-7019A	34-7019B
Acres 79	Acres 53
cfs 0.79	cfs .53
	cfs 0.02 (domestic)
conditions	conditions
Acres 79	Acres 53
cfs 1.4	cfs 2.12
AF 276.5	AF 185.5
Acre limit 70.6	Acre limit 47.4
34-10056A	34-10056B
Acres 79	Acres
cfs 0.084	cfs 0.056
conditions	conditions
Acres 79	Acres 53
cfs 1.4	cfs 2.12
AF 276.5	AF 185.5
Enlargement acres 8.4	Enlargement Acres 5.6

After the split nothing was updated for 34-302 or 34-2252 (conditions should have been updated to reflect new water right numbers (34-7019A & B and 34-10056A & B) and adjust acres and cfs in conditions to reflect the 79 acres and 53 acres seperately)

Error on ownership change:

Issue on split in conditions cfs limit for the 79 acres is 1.4 cfs and cfs limit on the 53 acres is 2.12 cfs. Seems like that was an error, possibly they were switched. I switched them back so that the 79 acres had the 2.12 and the 53 acres had a limit of 1.4. However when I redid the math I got that the 79 acres should have 2.11 and the 53 acres should have 1.41 so I updated the cfs accordingly. $(79/132 \times 3.52 = 2.106 \text{ or } 2.11)$ $(53/132 \times 3.52 = 1.413 \text{ or } 1.41)$

I also updated the conditions on 34-302 and 34-2252. The place of use for 34-302 is completely on the 53 acre property so I updated the conditions to reflect the calculations and water right numbers for that property. The place of use for 34-2252 is completely on the 79 acre property so I updated the conditions to reflect the calculations and combined water right numbers for that property.

Proof reports before and after split scanned to the water right numbers.
